

# AQUAROCK FOUNTAIN KITS

**AquaRock Blue Stone Fountain Kit**  
Item #97067

**AquaRock Sandstone Fountain Kit**  
Item #97068

Contents	
No.	Description
1.	5 gallon bucket (water basin) with perforated lid
2.	Splash skirt liner
3.	Water pump
4.	Water hose
5.	Pre-drilled rock stack

## Instructions

### STEP 1

- Dig out the appropriate amount of soil to bury the bucket (Ex. 1).

### STEP 2

- Place the bucket into the hole you have created. Then, position the splash skirt liner over the bucket opening and secure the lid on the bucket to hold the liner in place (Ex. 2).

### STEP 3

- Add gravel or decorative pebbles (not included) to cover the liner and bucket lid (Ex. 3).

### STEP 4

- Fill the bucket with water and plug in the pump. Enjoy your new water feature! (Ex. 4)

## Winterization

In areas subject to freezing temperatures, the basin should be drained and covered. Remove the pump and store it indoors or in a frost-free location.
