The leading water feature manufacturer in North America.

Thank you for 28 years of support!

Your Paradise. Our Passion.® That’s our motto at Aquascape. We strive each and every day to provide the best products and services in the water feature industry.

Whether you are experienced or new to the world of water features, we invite you to explore our comprehensive selection of products designed to build, enhance, and maintain a wide variety of water features, including ponds, waterfalls, and fountains.
From our expansive selection of high-quality products with long-term warranties to our industry-leading training events and experienced Customer Care and Technical Support teams, we are here to ensure your success installing, selling, or enjoying Aquascape water features.

Welcome to the Wonderful World of Water Features!

Greg Wittstock
"The Pond Guy"
At Aquascape, our passion is helping people transform both their outdoor living space and how they spend their leisure time. “Living the Aquascape Lifestyle” is about having an escape at home. When you live with a pond, waterfall, or fountain, you are drawn outside, away from daily stresses, to interact with your landscape in a variety of ways. Water feature owners enjoy feeding colorful fish, watching birds splash in a waterfall, or simply listening to the tranquil sounds of moving water. The benefits are plentiful, and Aquascape makes it easier than ever to enjoy the Aquascape Lifestyle.
Aquascape Ecosystem Pond Approach

Ecosystem ponds work with nature, not against it, providing an all-natural, low-maintenance piece of paradise. Each component of the ecosystem pond plays a key role in keeping ponds balanced, clean, and clear.

**Filtration System**
Includes the use of both a biological and a mechanical filter.
- A BioFalls® filter provides surface area for beneficial bacteria to colonize and remove excess nutrients from the water.
- A pond skimmer pre-filters the water and houses the pump, collecting surface debris and reducing pond maintenance.

**Rocks and Gravel**
Rocks and gravel protect the liner, naturalize the pond bottom, and provide tremendous surface area for beneficial bacteria to break down excess nutrients in the water.

**Circulation System**
Proper water flow throughout the pond helps to maintain necessary oxygen levels, provide beauty, optimize water quality, and minimize maintenance.

**Fish**
Fish make great pets and are an integral part of any ecosystem. Not only do fish provide nutrients for your aquatic plants, but they also graze on excess algae growth, reducing maintenance.

**Aquatic Plants**
Plants, Mother Nature’s true filters, provide color and texture and help to balance the entire pond ecosystem, minimizing maintenance and improving water conditions by absorbing excess nutrients.
The Ecosystem Pond

1. Pond Skimmer
2. BioFalls® Filter
3. Pond Pump
4. Pipe
5. Rocks and Gravel
6. Pond Liner and Underlayment
7. Plants
8. Fish

Step-By-Step

1. Carefully remove contents from box.
2. Select your location.
3. Use garden hose and outline area.
4. Position the filters.
5. Dig the hole.
6. Level the excavation.
7. Install underlayment and liner.
8. Add rock and gravel.
9. Fill the pond.

ENJOY!
DIY Backyard Pond Kits

Kit Includes:
- Signature Series 200 Pond Skimmer
- Signature Series 1000 BioFalls® Filter and BioBalls Biological Filter Media
- AquaSurge® 2000 Pond Pump
- Kink-Free Pipe—1.5” x 25’
- 45 mil EPDM Liner
- Non-Woven Geotextile Underlayment
- Installation Kit
  - Fittings
  - Silicone Sealant
  - Pond and Waterfall Foam Sealant
- Welcome Kit

DIY Backyard Pond Kit 4’ x 6’
Includes 8’ x 10’ liner to build a 4’ x 6’ pond with a maximum depth of 2’
#83005
Packaged Weight: 73 lb

DIY Backyard Pond Kit 6’ x 8’
Includes 10’ x 12’ liner to build a 6’ x 8’ pond with a maximum depth of 2’
#83006
Packaged Weight: 85 lb

DIY Backyard Pond Kit 8’ x 11’
Includes 12’ x 15’ liner to build a 8’ x 11’ pond with a maximum depth of 2’
#83007
Packaged Weight: 105 lb

Small Pond Kit 8’ x 11’

Kit Includes:
- Signature Series 400 Pond Skimmer
- Signature Series 1000 BioFalls® Filter, Rock Tray, and BioBalls Biological Filter Media
- AquaSurge® 3000 Pond Pump
- Flexible PVC Pipe—1.5” x 25’
- 45 mil EPDM Liner—12’ x 15’ to build a 8’ x 11’ pond with a maximum depth of 2’
- Non-Woven Geotextile Underlayment—180 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Automatic Dosing System for Ponds—Includes Water Treatment
- Welcome Kit

Small Pond Kit 8’ x 11’
#53043
Packaged Weight: 140 lb
Pond Kits

Medium Pond Kits 11' X 16'

Kit Includes:
- Signature Series 1000 Pond Skimmer
- Signature Series 2500 BioFalls® Filter, Rock Tray, Faux Rock Lip, and BioBalls Biological Filter Media
- Choice of Pond Pump:
  - AquaSurge® 2000-4000 Adjustable Flow Pond Pump
  - 3-PL 3000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 25’
- 45 mil EPDM Liner—15’ x 20’ to build a 11’ x 16’ pond with a maximum depth of 2’
- Non-Woven Geotextile Underlayment—300 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Garden and Pond LED Lighting Package
  - (2) 3-Watt LED Spotlights
  - 1-Watt LED Waterfall and Up Light
  - 60-Watt Transformer with Photocell
  - 3-Way Splitter and 25’ Quick-Connect Extension Cable
- Automatic Dosing System for Ponds—Includes Water Treatment
- Welcome Kit

**Medium Pond Kit 11' x 16' with AquaSurge® 2000-4000 Pond Pump**

#53044

Packaged Weight: 215 lb

---

Large Pond Kits 21' X 26'

Kit Includes:
- Signature Series 1000 Pond Skimmer
- Signature Series 6000 BioFalls® Filter, Rock Tray, and BioBalls Biological Filter Media
- Choice of Pond Pump:
  - AquaSurge® 4000-8000 Adjustable Flow Pond Pump
  - 9-PL 7000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 50’
- 45 mil EPDM Liner—25’ x 30’ to build a 21’ x 26’ pond with a maximum depth of 2’
- Non-Woven Geotextile Underlayment—750 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Garden and Pond LED Lighting Package
  - (2) 3-Watt LED Spotlights
  - 1-Watt LED Waterfall and Up Light
  - 60-Watt Transformer with Photocell
  - 3-Way Splitter and 25’ Quick-Connect Extension Cable
- Automatic Dosing System for Ponds—Includes Water Treatment
- Welcome Kit

**Large Pond Kit 21' x 26' with AquaSurge® 4000-8000 Pond Pump**

#53046

Packaged Weight: 405 lb

---

Medium Pond Kit 11' x 16'

Kit Includes:
- Signature Series 1000 Pond Skimmer
- Signature Series 2500 BioFalls® Filter, Rock Tray, Faux Rock Lip, and BioBalls Biological Filter Media
- Choice of Pond Pump:
  - AquaSurge® 2000-4000 Adjustable Flow Pond Pump
  - 3-PL 3000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 25’
- 45 mil EPDM Liner—15’ x 20’ to build a 11’ x 16’ pond with a maximum depth of 2’
- Non-Woven Geotextile Underlayment—300 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Garden and Pond LED Lighting Package
  - (2) 3-Watt LED Spotlights
  - 1-Watt LED Waterfall and Up Light
  - 60-Watt Transformer with Photocell
  - 3-Way Splitter and 25’ Quick-Connect Extension Cable
- Automatic Dosing System for Ponds—Includes Water Treatment
- Welcome Kit

**Medium Pond Kit 11' x 16' with 3-PL 3000 Solids-Handling Pond Pump**

#53045

Packaged Weight: 218 lb

---

Large Pond Kit 21' x 26'

Kit Includes:
- Signature Series 1000 Pond Skimmer
- Signature Series 6000 BioFalls® Filter, Rock Tray, and BioBalls Biological Filter Media
- Choice of Pond Pump:
  - AquaSurge® 4000-8000 Adjustable Flow Pond Pump
  - 9-PL 7000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 50’
- 45 mil EPDM Liner—25’ x 30’ to build a 21’ x 26’ pond with a maximum depth of 2’
- Non-Woven Geotextile Underlayment—750 sq. ft.

Packaged Weight: 409 lb
PONDLESS® WATERFALL KITS

What is a Pondless® Waterfall?

A Pondless® Waterfall is simply a re-circulating waterfall or stream without the presence of a pond. The waterfall works by pumping water from a large, in-ground reservoir up to the top of the waterfall, allowing the water to flow back down into the reservoir. This simple recirculation system is easy to install, low-maintenance, and ideal for families with young children or pets that love to play in the water.

Enjoy the beauty and soothing sounds of a waterfall in any location. Tuck a small waterfall near the front entrance of your home to greet visitors, or add a meandering stream to your backyard.

You can easily add a pond to your waterfall later, if you decide you’d like to keep fish and enjoy a larger variety of aquatic plants.
The Pondless® Waterfall

1. Waterfall Spillway
2. Rocks and Gravel
3. Pondless® Waterfall Vault
4. Pond Pump
5. AquaBlox® Water Storage Modules
6. Liner and Underlayment

Step-By-Step

1. Carefully remove contents from box.
2. Select your location.
3. Position equipment and outline area.
4. Excavate the area.
5. Install underlayment and liner.
6. Add filter equipment.
7. Build waterfall.
8. Install spillway at top of waterfall.

ENJOY!
Pondless® Waterfall Kits

Backyard Waterfall Landscape Fountain Kit*

Kit Includes:
- Waterfall Spillway
- AquaBasin® 45
- AquaSurge® 2000 Pond Pump
- AquaSurge® Low Suction Intake Attachment
- Flexible PVC Pipe — 1.5” x 15’
- 45 mil EPDM Liner - 7.5’ x 7.5’ Liner
- Installation Kit
  - Fittings
  - Silicone Sealant
  - Pond and Waterfall Foam Sealant
- Welcome Kit

Packaged Weight: 147 lb

See page 98 for more information.

Backyard Waterfall Landscape Fountain Kit
#83013C

DIY Pondless® Waterfall Kit

Kit Includes:
- Waterfall Spillway
- Pondless® Waterfall Vault
- 2) AquaBlox® Small Water Storage Modules
- AquaSurge® 2000 Pond Pump
- 45 mil EPDM Liner — 10’ x 12’ Liner
- Non-Woven Geotextile Underlayment — 105 sq. ft.
- Kink-Free Pipe — 1.5” x 25’
- Installation Kit
  - Fittings
  - Silicone Sealant
  - Pond and Waterfall Foam Sealant
- Welcome Kit

Packaged Weight: 80 lb

Small Pondless® Waterfall Kit
6’ Stream

Kit Includes:
- Waterfall Spillway
- Pondless® Waterfall Vault
- 3) AquaBlox® Small Water Storage Modules
- AquaSurge® 2000–4000 Adjustable Flow Pond Pump
- Flexible PVC Pipe — 1.5” x 25’
- 45 mil EPDM Liner — 10’ x 10’
- 45 mil EPDM Stream Liner — 10’ x 8’ Liner
- Non-Woven Geotextile Underlayment — 100 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Automatic Dosing System for Fountains — Includes Water Treatment
- Welcome Kit

Packaged Weight: 149 lb

Pondless® Waterfall Kits

Medium Pondless® Waterfall Kit 16’ Stream

Kit Includes:
- Waterfall Spillway
- Pondless® Waterfall Vault
- (5) AquaBlox® Small Water Storage Modules
- Choice of Pond Pump:
  - AquaSurge® 2000-4000 Adjustable Flow Pond Pump
  OR
  - 3-PL 3000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 25’
- 45 mil EPDM Liner—10’ x 12’
- 45 mil EPDM Stream Liner—10’ x 20’ Liner
- Non-Woven Geotextile Underlayment—120 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Garden and Pond LED Lighting Package
  - (2) 1-Watt LED Waterfall and Up Lights
  - 60-Watt Transformer with Photocell
  - 3-Way Splitter and 25’ Quick-Connect Extension Cable
- Automatic Dosing System for Fountains—Includes Water Treatment
- Welcome Kit

Packaged Weight: 215 lb

Large Pondless® Waterfall Kit 26’ Stream

Kit Includes:
- Waterfall Spillway
- Pondless® Waterfall Vault
- (5) AquaBlox® Large Water Storage Modules
- Choice of Pond Pump:
  - AquaSurge® 4000-8000 Adjustable Flow Pond Pump
  OR
  - 5-PL 5000 Solids-Handling Pond Pump
- Flexible PVC Pipe—2” x 50’
- 45 mil EPDM Liner—12’ x 15’
- 45 mil EPDM Stream Liner—10’ x 30’ Liner
- Non-Woven Geotextile Underlayment—180 sq. ft.
- Pump Check Valve Assembly
- Installation Kit
  - Silicone Sealant
  - EPDM Liner Patch
  - Pond and Waterfall Foam Sealant
  - Christy’s Red Hot Blue Glue
- Garden and Pond LED Lighting Package
  - (3) 1-Watt LED Waterfall and Up Lights
  - 60-Watt Transformer with Photocell
  - 3-Way Splitter and 25’ Quick-Connect Extension Cable
- Automatic Dosing System for Fountains—Includes Water Treatment
- Welcome Kit

Packaged Weight: 309 lb
The Science Behind Filtration

There are two forms of filtration critical to maintaining a healthy ecosystem pond: mechanical and biological. Through mechanical and biological filtration, the water garden will process a variety of nutrients found in the system, including fish waste, uneaten fish food, leaves, and runoff from lawns.

How to Choose the Right Filter for Your Pond

To keep your pond or water feature looking beautiful, it is important to provide proper filtration. There are advantages to every type of filter, so we will list the features and benefits of each option, making it simple and easy to select the correct filter for your application.

New Ponds

The advantage of choosing the right filter before you get started should not be underestimated. Aquascape takes an ecosystem approach to water gardening. This approach uses a skimmer and BioFalls®. The skimmer removes leaves and debris from the surface of the pond, optimizing water quality. A BioFalls® Filter performs two very important functions: it supports mechanical and biological filtration and provides a great start to any waterfall.

Existing Ponds

In some circumstances it can be challenging to add a skimmer and BioFalls® to an existing system. Perhaps the shape or building technique makes it prohibitive. In this situation we recommend the use of an UltraKlean™ Pond Filter, Submersible Pond Filter, Pond Waterfall Filter, or Pond Filter Urn. These filters will retrofit quickly into existing systems and provide efficient mechanical and biological filtration.
Pond Skimmer Filters

Pond skimmers are designed to eliminate water quality problems and reduce maintenance by removing debris before it sinks to the bottom of the pond, allowing a pond to be installed anywhere, even beneath trees. Because the skimmer removes debris before it reaches the pump, it acts as a pre-filter, reducing pump maintenance and making pump access quick and easy. All pond skimmers include a limited lifetime warranty.

BioFalls® Filters

Aquascape Professional Grade BioFalls® Filters provide the most filtration and highest water flows in the market. Durable, rotationally-molded polyethylene construction ensures maximum strength, and all Signature Series BioFalls® Filters include a limited lifetime warranty.

BioFalls® Filters

BioFalls® Filters

Signature Series 1000
BioFalls® Filter
#99774
Packaged Weight: 11 lb
Dimensions: 17.5”L x 20.5”W x 17”H

Signature Series 2500
BioFalls® Filter
#09020
Packaged Weight: 23 lb
Dimensions: 24”L x 29.5”W x 20”H

Signature Series 6000
BioFalls® Filter
with 2” Bulkhead
#29319
Packaged Weight: 55 lb
Dimensions: 40”L x 45”W x 29.5”H

Features of the BioFalls® 2500 and 6000 Filter

1. Reversible waterfall lip provides the option of using a natural stone spillway
2. Removable rock tray holds rocks, plants, and gravel, helping to naturalize the filter into the landscape
3. BioFalls® Filter Media Net (BioBalls sold separately*)
4. Corrosion-resistant, non-cross-threading hardware stands up to the elements
5. Two Poly-Flo ESA biological filter mats provide 50% more surface area than traditional filter mats
6. Two bulkhead ports provide multiple plumbing options
7. Filter support rack ensures evenly distributed water flow through filter mats and provides structural strength to the walls of the filter
8. Circular shape provides maximum strength and makes it easy to camouflage into the landscape

Pondless® Waterfall Vault

Packaged Weight: 14 lb
The Pondless® Waterfall Vault is the ideal pump vault for use in Pondless® Waterfalls, Rainwater Harvesting Systems, and large fountains, effectively protecting the pump and simplifying maintenance.
- Simple to install and maintain
- Fits a wide range of pump sizes and flow rates
- Ideal for use with the AquaBlox® Water Storage Modules
- Extensions can be used to extend the height for deeper applications
- Made from durable rotationally-molded polyethylene

Features of the Pondless® Waterfall Vault
1. Built-in water level inspection port allows the lid to be buried out of sight
2. Extra wide opening provides easy pump access
3. Excellent water circulation through water intakes
4. Large interior fits a wide range of pump sizes

UltraKlean™ Pond Filters

Aquascape UltraKlean™ Pond Filters provide optimum water quality and crystal clear pond water. The unique sponge-free design minimizes maintenance and maximizes efficient mechanical and biological filtration. The simple-to-use cleaning feature allows the unit to be backwashed in less than five minutes without opening the canister or getting hands dirty.

- Efficiently traps dirt and debris
- Includes high-output UV clarifier and integrated electronic bulb-saver function
- Easily integrated into new or existing ponds
- Eliminates green water caused by suspended algae

### Features of the UltraKlean™ Pond Filters

1. UV clarifier/sterilizer on/off LED indicator light
2. Cleaning indicator light signals when it’s time to backwash
3. Electronic ballast ensures optimum wattage and bulb output
4. UV bulb-saver timer feature maximizes bulb life and provides an ideal time to add bacteria
5. Backwash valve and discharge shutoff valve make it easy to quickly clean the filter
6. Water inlet diffuser evenly distributes debris, maximizing mechanical filtration
7. UV clarifier/sterilizer eliminates single-celled algae commonly known as green water
8. BioBalls provide efficient biological/mechanical filtration
9. Backwash swirl diffuser efficiently churns the water to clean the filter media

Submersible Pond Filter

The Aquascape® Submersible Pond Filter provides efficient mechanical and biological filtration. This unobtrusive filter can be added to the intake of almost any submersible water pump, resulting in crystal clear water and while reducing pond pump maintenance.

- For ponds up to 800 gallons
- Provides mechanical and biological filtration
- Pre-filters pump for reduced maintenance
- Removable cage for easy cleaning
- Keeps pond water clean, clear, and healthy
- Includes pre-filtration sponge and ceramic filtration rings

Features of the Submersible Pond Filter

1. The large surface area and small openings of the cage prevents large debris from clogging the filter
2. The pre-filtration sponge provides efficient mechanical and biological filtration and dramatically reduces pump maintenance
3. The included threaded intake and multi-hose adapter makes it easy to adapt to most pond pumps with a small piece of kink-free pipe or threaded fitting
4. The ceramic filtration rings provide surface area for beneficial bacteria to colonize, providing efficient biological filtration

Submersible Pond Filter Application

3/4", 1", 1 1/4" Multi-Hose Adapters

Packaged Weight: 4.5 lb
Waterfall Spillway

#77000

Packaged Weight: 9 lb

The Waterfall Spillway is a cost-effective solution to create the starting point of a beautiful waterfall and stream.

- Creates smooth, consistent, leak-free water flow
- The durable design makes it easy to disguise by allowing soil, rocks, or logs to be placed directly on top of the unit
- Ideal for starting waterfalls on Pondless® Waterfall systems, where, due to the absence of fish, biological filters aren’t necessary
- Excellent choice for designing additional waterfalls and streams onto new or existing ponds that already have a biological filter
- Build behind hardscape walls to provide a more formal waterfall design
- Use multiple Waterfall Spillways to design larger, more complex waterfall configurations

Features of the Waterfall Spillway

① Durable design allows boulders, logs, or other creative landscape material to be set directly on top, helping to camouflage the spillway into the surrounding landscape
② Watertight connection using the fitting on the back of the Waterfall Spillway
③ Wide 22" spillway handles flow rates up to 7,500 GPH
④ Internal barriers provide a smooth-flowing waterfall

IonGen™ System G2

The IonGen™ System G2 electronic water clarifier allows you to spend your time relaxing next to your water feature instead of maintaining it! The IonGen™ effectively removes debris without the use of traditional liquid chemicals and is designed with a microprocessor that sends a signal to its ion producing probe, helping to control debris throughout the entire water feature.

- Simple to install
- Compatible with water containing fish and plants
- Energy efficient
- Treats ponds up to 25,000 gallons
- Complete with electronic control panel, outdoor-rated transformer, flow chamber, probe, probe fittings, probe holder, copper test kit, alkalinity test kit and owner’s manual

Features of the IonGen™ System G2

1. Weatherproof control panel
2. Easy-to-read digital display
3. Indicator notifies you when the probe needs to be replaced
4. Adjustable ionization level
5. Durable quick-connect electrical connections
6. Tool-free probe installation
7. Angled probe helps deflect debris and reduce clogging
8. 2” threaded inlet and outlet

IonGen™ System G2

#95012

Packaged Weight: 3.3 lb
Packaged Dimensions: 14”L x 4.5”W x 18”H

IonGen™ System G2 Pond Application

Option 1: Probe can be installed directly into the water feature plumbing
Option 2: Probe can be placed in an area with good water circulation

Fittings Included

2 x 1”, 1¼”, 1½” Multi-Hose Fitting,
2 x 2” PVC Slip Fitting
IonGen™ Accessories

**IonGen™ G2 Probe Holder**
#95077
Packaged Weight: 0.5 lb
- Allows for installation of G2 Probe without flow chamber
- Can be used in a filter, such as a skimmer or Pondless® Waterfall Vault
- Straps onto any pipe or check valve from 1–4 inches in diameter

**IonGen™ Probe for the G2 System**
#95016
Packaged Weight: 0.5 lb
- For 2nd generation flow chamber
- Includes 5 foot quick-connect cable

**IonGen™ Probe for the G1.5 System**
#95072
Packaged Weight: 1 lb
- For 1st generation PVC tee-style flow chamber and the G2 control panel
- Includes 5 foot quick-connect cable

**CU/Copper Test Kit**
#96020
Packaged Weight: 0.2 lb
- Measures residual copper
- 25 tests per kit

**KH/Alkalinity Test Kit**
#96019
Packaged Weight: 0.2 lb
- Measures KH/alkalinity
- 60 tests per kit
UltraKlear® UV Clarifier

The Aquascape UltraKlear® UV Clarifier uses a technologically-advanced T5 high-output UVC bulb to eliminate ‘green water’. The Aquascape UltraKlear® UV Clarifier features a swirl sleeve which directs the water around the UV bulb, maximizing contact time and increasing UV efficiency up to 50% over traditional UV clarifiers.

- Effectively clears unsightly green (pea soup) water algae blooms
- Simple and easy to use, install, and maintain
- Features a swirl sleeve to optimize UV efficiency
- High-output UV bulb maximizes performance
- Easy-to-remove bulb and quartz sleeve
- Can be mounted horizontally or vertically

### UltraKlear® 1000 UV Clarifier

- **#95036**
- Packaged Weight: 6.5 lb
- Dimensions: 23.5”L x 5.5”W x 3.75”H

### UltraKlear® 2500 UV Clarifier

- **#95037**
- Packaged Weight: 8 lb
- Dimensions: 33.5”L x 5.5”W x 3.75”H

### UltraKlear® 5000 UV Clarifier

- **#95038**
- Packaged Weight: 10 lb
- Dimensions: 43”L x 5.5”W x 3.75”H

### Features of the UltraKlear® UV Clarifier

1. Narrow contact chamber increases effectiveness of UV light
2. Internal sleeve increases contact time, thus increasing efficiency
3. Additional side water flow output allows for easier installation
4. High-output (HO) T5 bulb maximizes effectiveness
5. On/off indicator provides quick verification
6. Mounting brackets make it simple to attach the unit to a vertical surface
7. High-quality quartz sleeve maximizes bulb output
8. Mechanical safety switch automatically turns off bulb when the ballast/bulb is removed
9. Electronic ballast ensures optimum wattage and bulb output

- 1½” Multi-Hose Fittings, 2 x Elbows,
- 2 x Adapters, 2 x Mounting Brackets
Additional Pond Filters

These filters are ideal for smaller ponds, including preformed ponds or container water gardens. These filters can be easily incorporated into existing ponds, and are ideal for use with Aquascape Ultra, EcoWave, AquaSurge®, or AquaForce® Pumps.

---

Pond Waterfall Filter

#77020

Packaged Weight: 11 lb
- Provides efficient mechanical and biological filtration for ponds up to 1,000 gallons
- Includes rigid filter mat and biological filter media net

---

Features of the Pond Waterfall Filter

1. Durable, circular construction ensures maximum strength
2. Filter mat provides ideal mechanical and biological filtration
3. Included filter media net holds biological filter media (filter media sold separately)
4. Filter rack provides support for filter media
5. Fitting accepts 1", 1¼", and 1½" pipe sizes

---

Small Pond Filter Urn

#77006

Packaged Weight: 16.1 lb
Dimensions: 20"L x 11"W x 11"H

---

Features of the Pond Filter Urn

1. Removable filter lid allows easy access for cleaning
2. Decorative filter housing can be easily incorporated into any setting
3. Inlet hose accommodates most small pumps
4. Mechanical filtration removes debris
5. Ceramic filtration rings provide bacteria with a large surface area for colonization

---

Large Pond Filter Urn

#77011

Packaged Weight: 25 lb
Dimensions: 28"L x 15.5"W x 15.5"H

---

aquascapeinc.com
AquaBlox® Water Storage Modules provide an efficient way to maximize water storage capacity in Pondless® Waterfall reservoirs, Rainwater Harvesting Systems, and permeable paver applications.

- Over 3 times more water storage capacity than gravel
- Holds approximately 7.4 gallons of water per cubic foot, compared to gravel, which holds approximately 2.2 gallons of water per cubic foot
- Extra water storage capacity means less time topping off reservoir due to evaporation
- Easier to clean and less prone to clogging than traditional gravel basins
- Allows for a smaller reservoir footprint
- Less labor required to excavate and move gravel
- Uses less liner and geotextile underlayment than reservoirs constructed with gravel

AquaBlox® Small Water Storage Module
#29491
Packaged Weight: 11 lb
Dimensions: 26.5”L x 16”W x 9.5”H

AquaBlox® Large Water Storage Module
#29492
Packaged Weight: 16 lb
Dimensions: 26.5”L x 16”W x 17.5”H

Takes one minute to assemble!
AquaBlox® are assembled on-site, making transportation and installation extremely efficient

**Snorkel® and Centipede® Wetland Filter**

Our patented Snorkel® Vault and Centipede® Module were specifically designed to tackle the common issues that plague large scale water features. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs.

- Highly effective at removing sediment (suspended solids) from ponds
- Easily access collected sediment with the Snorkel® Vault, reducing the need for costly and invasive dredging
- Improves water clarity
- Works on earth bottom and liner membrane ponds
- Reduces the physical and chemical maintenance that goes along with removing algae
- Easily retrofitted onto existing ponds

**Large Snorkel® Vault and Cap #29064**

Packaged Weight: 27 lb

- Allows pump to be dropped in for easy cleaning
- Four ports for Large Centipede® Module attachment

**Large Snorkel® Vault Extension #29068**

Packaged Weight: 10 lb

- For use when creating deeper basins or using the AquascapePRO 10,000 or 12-PN pump

**Large Centipede® Module #29065**

Packaged Weight: 29 lb

- Sits at the lowest point in the filter
- Ensures maximum water distribution and allows for efficient sediment removal during cleaning
- Modular design

Container Water Garden Filter

The Aquascape Container Water Garden Filter is a complete solution for container water gardens or containers with stagnant or non-moving water, including birdbaths and water containers holding pond plants like lotus or waterlilies.

- Provides ideal filtration for container water gardens up to 50 gallons
- Magnetically-driven motor is simple and easy to maintain
- Extremely energy-efficient
- Durable pre-filter water intake design prevents clogging and reduces pump maintenance

BioBalls Biological Filter Media

Aquascape BioBalls provide a textured surface area (19 square inches per BioBall) for beneficial bacteria to colonize and grow, keeping pond water clean, clear, and healthy. BioBalls are easy to clean, long lasting, and lightweight, making them the ideal filtration media for use in biological filters.

BioBalls Biological Filter Media

- 100 Count
- Packaged Weight: 2.8 lb
- Packaged Dimensions: 8"L x 8"W x 6.5"H
- • 100 BioBalls
- • 1.5" diameter
- • Media net included

- Speeds-up filtering of flocculated particles
- Enhances water quality
- For best results, use in combination with Rapid Clear Flocculant water treatments
Selecting the proper submersible water pump is extremely important in order to achieve optimum performance of your pond or water feature. There are three basic types of water pumps available in the ornamental pond industry: direct-drive, asynchronous, and magnetically-driven pumps (also known as mag-drive). The following section will help you make the right selection. If you have questions about pump selection, please visit our website or contact Aquascape Customer Care.

**Direct-Drive**
Direct-drive water pumps provide consumers with a high torque, high head height pump option. Direct-drive pumps are generally easier to maintain because of their ability to handle larger solids. It is important to note that these pumps have to be operated within a specific performance curve to optimize lifespan.

**Mag-Drive**
Mag-drive water pumps are a simple and easy-to-use solution for small water features including decorative fountains and spitters. These pumps are easy to retrofit into existing water features. Mag-drive pumps have only one moving part, making them inexpensive and easy to maintain. Mag-drive pumps are also extremely quiet and energy-efficient.

**Asynchronous**
Asynchronous water pumps are a hybrid between a direct-drive and mag-drive pump. They have only one moving part, making them less expensive and easy to maintain. This type of pump is extremely energy-efficient, and choosing one over a traditional direct-driven pump often pays for itself quickly in power consumption savings.
AquaSurge® Pond Pumps

AquaSurge® asynchronous pond pumps combine energy-efficient performance, high flow rates, and ease of maintenance, making this pump the perfect choice for pond owners. AquaSurge® pumps are ideal for use in pond skimmers and Pondless® Waterfall Vaults.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance
- Oil-free design prevents pond contamination
- Made for continuous use
- Will not corrode or rust
- Can be used vertically or horizontally
- Plumbing adapter fittings included

AquaSurge® 2000 Pond Pump
#91017
Packaged Weight: 9.3 lb
Packaged Dimensions: 13.25"L x 9"W x 9"H

AquaSurge® 3000 Pond Pump
#91018
Packaged Weight: 9.7 lb
Packaged Dimensions: 13.25"L x 9"W x 9.5"H

AquaSurge® 4000 Pond Pump
#91019
Packaged Weight: 12.1 lb
Packaged Dimensions: 15"L x 9.25"H x 10.5"H

AquaSurge® 5000 Pond Pump
#91020
Packaged Weight: 13.7 lb
Packaged Dimensions: 15"L x 9.25"W x 11.25"H

AquaSurge® Low Suction Intake Attachment
#91117
Packaged Weight: 1 lb
Allows pump to operate in shallow applications such as the AquaBasin® 45.
NOTE: Not compatible with the AquaSurge® 4000-8000

FITTINGS INCLUDED
2 x 1", 1¼", 1½" Multi-Hose Fittings, 1¼", 1½", 2" Multi-Hose Fitting, 1½", 2" Multi-Hose Fitting, 1½" Rotational Ball Output, 1½" Female Coupler, 1½" Male Coupler
NOTE: multiple fittings included to simplify plumbing connection
AquaSurge® Adjustable Flow Pond Pumps

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Wireless flow control makes it easy to select the right pump for any application
- Pump can be adjusted or turned on or off with remote
- Allows waterfalls to be adjusted or turned on and off when desired

### Features of the AquaSurge® Pond Pumps

1. Compact size makes it the perfect pump for pond skimmers
2. Built-in cord strain relief protects the cord from being damaged
3. Asynchronous motor technology makes this pump more powerful than traditional magnetically-driven pond pumps
4. Unique ceramic shaft with cooling port prevents the pump from overheating
5. Simple and secure threaded disconnect allows the pump to be easily removed from the skimmer for maintenance or winterization
6. Integrated rubber feet prevent noise and vibration
7. The rotational ball output allows the discharge position to be easily adjusted
8. Included pump stand allows for vertical positioning

### FITTINGS INCLUDED

- 2 x 1”, 1¼”, 1½” Multi-Hose Fittings, 1¼”, 1½”, 2” Multi-Hose Fitting, 1½”, 2” Multi-Hose Fitting, 1½” Rotational Ball Output, 1½” Female Coupler, 1½” Male Coupler

NOTE: multiple fittings included to simplify plumbing connection

### REMOTE INCLUDED

- Increase Flow
- Decrease Flow
- On/Off button in the center

### Adjustable Flow Pond Pump Remote and Receiver

Features include:
- Numeric flow indicator
- Includes remote control holster for quick and easy mounting
- Receiver includes mounting hardware
- Sleek and ergonomic design

NOTE: Only compatible with AquaForce® and AquaSurge® Adjustable Flow Pond Pumps

The PL and PN series pumps are known for durability, performance, and value. The direct-drive motor and semi-vortex impeller design enables the pump to efficiently and effectively handle solids, resulting in less maintenance and trouble-free performance. The built-in thermal overload protects the pump from damage if operated in low water conditions.

- Ideal for use in pond skimmer filters and the Pondless® Waterfall Vault
- Semi-vortex solids-handling impeller reduces clogging and decreases maintenance
- Continuous duty motor operates at lower temperatures to extend pump life
- Constructed of stainless steel and composite resin for strength and corrosion resistance

AquascapePRO® Pond Pumps

AquascapePRO® Pond Pumps are ideal for use in pond skimmer and waterfall filter systems, as well as Pondless® Waterfall Vaults. Pond pumps from the AquascapePRO line are quiet and low maintenance. These pumps feature durable, stainless steel construction along with rubber feet to reduce vibration. These direct-drive pumps are ideal for high head heights.

- Ideal for use in pond skimmer filters and the Pondless® Waterfall Vault
- Ideal for high head heights
- Direct-drive motor reduces clogging and decreases maintenance
- Constructed of stainless steel and composite resin for strength and corrosion resistance

AquaForce® Solids-Handling Pond Pumps

AquaForce® asynchronous, solids-handling waterfall and filter pumps combine energy-efficient performance, high flow rates, and ease of maintenance, making this pump the ideal choice for discerning pond owners. The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond. AquaForce® pumps are able to pump solids up to ¼” inch in diameter, making it ideal for use with external pressure filters or Aquascape waterfall filter systems.

- Extremely energy-efficient, resulting in considerable annual energy savings
- Asynchronous motor technology provides high torque, trouble-free performance
- Handles solids up to ¼” in diameter
- Easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Plumbing adapter fittings included
- Provides years of trouble-free operation
- Can also be used as a de-icer pump during cold weather months

3 YEAR WARRANTY
AquaForce® Adjustable Flow Solids-Handling Pond Pumps

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Ability to adjust the flow makes it easy to select the right pump for any application
- Pump can be turned on or off with remote
- Each remote and receiver are paired together with a unique frequency

AquaForce® 4000–8000 Adjustable Flow Solids-Handling Pond Pump
#91104

Packaged Weight: 16.5 lb
Packaged Dimensions: 14"L x 9"W x 18.75"H

Features of the AquaForce® Pond Pumps
① Protective pump cage prevents large debris from clogging or damaging pump, reducing maintenance
② Large cage openings allow solids to be easily passed and filtered, preventing the pump from being clogged or damaged
③ Asynchronous motor technology makes this pump more powerful than traditional magnetically-driven or "mag-drive" pond pumps
④ The simple and secure threaded disconnect allows the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assembly
⑤ The wide, flat shape of the pump cage makes it stable and easy to place in the pond
⑥ The rotational ball output allows the pump discharge position to be easily adjusted, making this pump ideal for all shapes and sizes of ponds

REMOTE INCLUDED

Adjustable Flow Pond Pump Remote and Receiver
Features include:
- Numeric flow indicator
- Includes remote control holster for quick and easy mounting
- Receiver includes mounting hardware
- Sleek and ergonomic design

NOTE: Only compatible with AquaForce® and AquaSurge® Adjustable Flow Pond Pumps

AquaForce® 4000–8000 Adjustable Flow Solids-Handling Pond Pump #91104

Packaged Weight: 16.5 lb
Packaged Dimensions: 14"L x 9"W x 18.75"H

AquaForce® Pond Application
The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond.

Pond Cleanout and Pump Maintenance

Cleanout Pump

#45033

Packaged Weight: 25 lb
- Great for pond cleanouts and installation wash-downs
- 4,200 gallon per hour for fast pump-outs
- Pumps water down to ¼" off the bottom

Cleanout Pump Discharge Hose 50'

#48019

Packaged Weight: 14.75 lb
- Heavy-duty cleanout discharge hose engineered for flexibility and optimal flow
- Swivel cuff fitting prevents kinking or tangling for easy movement around the water feature

Pump Cleaner Maintenance Solution — 8 oz

#91143

Packaged Weight: 0.6 lb
- Quickly cleans pond, fountain, and waterfall pumps to keep them operating properly
- Uses cutting-edge cleaning compounds to remove scale and bio-film to restore pump
AquaJet® Pond Pumps provide a stunning water fountain with the choice of three included fountain heads and an integrated diverter valve to supply water to a small waterfall, external filters, or spitting ornaments.

- Extremely energy-efficient, resulting in considerable annual energy savings
- Mag-drive motor technology is easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance

### AquaJet® 600 Pond Pump
- **Model**: #91014
- **Packaged Weight**: 5.5 lb
- **Packaged Dimensions**: 13.25"L x 8.75"W x 14.25"H

### AquaJet® 1300 Pond Pump
- **Model**: #91015
- **Packaged Weight**: 8.8 lb
- **Packaged Dimensions**: 13.25"L x 8.75"W x 15"H

### AquaJet® 2000 Pond Pump
- **Model**: #91016
- **Packaged Weight**: 9.7 lb
- **Packaged Dimensions**: 13.25"L x 8.75"W x 15.75"H

#### Features of the AquaJet® Pond Pumps
1. Adjustable riser stem allows for easy height adjustment from 10 to 20 inches
2. Adjustable diverter and flow control
3. Rotational riser stem fitting allows for simple leveling of fountain heads
4. Protective pump cage prevents debris from clogging or damaging pump, thereby reducing maintenance
5. Mag-drive motor technology makes this pump energy-efficient and simple to maintain
6. Fine cage openings prevents fountain heads from becoming clogged
7. Pump cage clips make it easy to perform pump maintenance or remove debris

EcoWave™ Pond Pumps

EcoWave™ Pond Pumps are magnetically-driven (mag-drive) pond and waterfall pumps developed to provide extremely high flow rates. The internal, smart mag-drive motor technology and vortex style impeller allows these pumps to push an incredible amount of water with an electrical efficiency unmatched by other pumps with similar flow rates. EcoWave Pond Pumps are ideal for use in pond simmers and Pondless® Waterfall Vault applications with lower head heights.

- Extremely energy-efficient smart mag-drive technology
- Extremely quiet
- Made for continuous use
- Will not corrode or rust
- Compact design
- Oil-free design prevents pond contamination
- Plumbing adapter fittings included

Ultra Water Pumps

Ultra Water Pumps are the complete solution for decorative fountains and spitters. These versatile pumps include a three-way or single valve and multi-size hose connection, making them adaptable to almost any pipe or tubing size.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Magnetically-driven motor technology is simple and easy to maintain
- Durable pre-filter cage design protects pump and reduces pump maintenance
- Oil-free design prevents contamination

Features of the Ultra Water Pumps

1. Protective pump strainer cover and sponge filter prevents debris from damaging pump, thereby reducing maintenance and prolonging pump life
2. Mag-drive motor technology makes this pump energy-efficient and simple to maintain
3. The wide, flat base and rubber feet make the pump stable and reduce vibration

Ultra 400 Water Pump
#91005
Packaged Weight: 2.9 lb
Packaged Dimensions: 9"L x 5"W x 5"H

## Ultra Water Pump Fountain Head Kits

### Small Ultra Pump Fountain Head Kit
- Ideal for Ultra 400, 550, and 800
- #91045
- Packaged Weight: 0.7 lb
- Packaged Dimensions: 5.5"L x 3.5"W x 7.25"H

### Large Ultra Pump Fountain Head Kit
- Ideal for Ultra 1100, 1500, and 2000
- #91046
- Packaged Weight: 0.7 lb
- Packaged Dimensions: 6"L x 3"W x 9"H

## Included Fountain Heads
- Foaming Jet Fountain
- Daisy Fountain
- Waterbell Fountain
Statuary Water Pumps

These high quality, magnetically-driven water pumps are ideal for supplying water to run fountains, container water features, and decorative spitters. The combination of energy-efficiency, mag-drive performance, water flow, and ease of maintenance makes this pump the ideal choice for discerning water feature owners.

- Extremely energy-efficient
- Mag-drive motor is simple and easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents contamination

70 GPH Water Pump
#91023
Packaged Weight: 0.75 lb
Packaged Dimensions: 4.25"L x 4"W x 2.75"H

90 GPH Water Pump
#91024
Packaged Weight: 0.75 lb
Packaged Dimensions: 4.25"L x 4"W x 3.25"H

180 GPH Water Pump
#91025
Packaged Weight: 1.5 lb
Packaged Dimensions: 4"L x 4"W x 4.75"H

320 GPH Water Pump
#91026
Packaged Weight: 1.25 lb
Packaged Dimensions: 4"L x 4"W x 4.75"H

Features of the Statuary Pumps
1. Mag-drive motor technology makes this pump energy-efficient and simple to maintain
2. Included flow control allows you to create a customized water flow
3. The wide, flat base of the pump makes it stable and easy to place in the pond or fountain
4. Protective pump input strainer cover prevents debris from clogging or damaging pump, reducing maintenance
5. Intake strainer on the bottom of the pump prevents the pump from running dry or pulling in air in shallow applications

Pond Powerhead

The Aquascape Pond Powerhead is an innovative new low voltage circulation pump designed to create water movement in ponds and water gardens. Either set the powerhead directly in the pond or disguise it using rocks or other materials.

- Great for solving problems with stagnant water
- Provides water movement, surface agitation, aeration and circulation
- Small compact design makes it easy to install in a new or existing water feature
- No pipe or plumbing required
- Energy-efficient, low voltage 40-watt motor can be powered by a standard outdoor 12-volt low voltage transformer. Transformers sold separately (see page 59)
- Includes 20 feet quick-connect cable
- Can be used alone or with additional Pond Powerheads to maximize circulation in larger water features

Pond Powerhead

#91142

Packaged Weight: 7.75 lb
Dimensions: 9.75"L x 5.75"W x 5.75"H

Features of the Pond Powerhead

1. Adjustable head allows for directional flow control
2. Propeller provides maximum water flow
3. Energy-efficient, 12-volt motor design
4. Durable construction ensures years of trouble-free use

Directional Flow Control

Compatible with Aquascape Garden and Pond Quick-Connect Splitters and Extension Cables (see page 56)

Pond Powerhead Application
AERATION

Every biological process that occurs in ponds is dependent on oxygen. This is especially important in warmer temperatures or at night when plants are not converting sunlight into oxygen. Pond aerators supply dissolved oxygen directly to ponds and other water features, helping all biological processes and resulting in healthier fish and plants. Proper aeration creates a stable pond environment, keeping water healthy, clean, and clear. Aeration can also be used during cold winter months to keep a hole open in the ice formed at the surface of the pond, allowing for necessary de-gassing.

Aquascape provides a complete line of pond aeration supplies, making it easy to enhance your pond or water feature with effective aeration. Our aeration products are available as complete kits or individual components, including compressors, diffusers, weighted tubing, and more. The specification chart and following information will help you to make the right product selection. If you have any questions about pond aeration, please visit our website or contact Aquascape Customer Care.
Aquascape 2-Outlet and 4-Outlet Pond Aeration Kits provide efficient aeration for ponds and water features up to 3,500 gallons, resulting in a healthier ecosystem and happier fish and plants.

- Extremely energy-efficient
- Quiet operation
- Simple to use and maintain
- Durable outer housing prevents damage
- Includes winter resistant air line, preassembled check valves, and air discs

### Features of the 2-Outlet and 4-Outlet Pond Aeration Kits

1. Strong outer housing protects the pump from becoming damaged
2. A thick rubber gasket reduces noise and prevents vibration
3. The wide, flat base of the pump makes it stable and easy to place
4. The integrated rubber feet minimize noise and vibration while maximizing stability

### 2-Outlet Pond Aeration Kit

- Model: #75000
- Weight: 5.5 lb

### 4-Outlet Pond Aeration Kit

- Model: #75001
- Weight: 8.8 lb

### Pond Aerator Aeration Disc

- Model: #75005
- Weight: 9.7 lb

**Pro Air 20 Pond Aeration Kit**

Packaged Weight: 11.5 lb
The Aquascape Pro Air 20 Pond Aeration Kit provides effective oxygenation and water circulation in ponds up to 5,000 gallons.

- Comes complete with outdoor-rated, energy-efficient 15-Watt compressor
- Includes 10’ clog-resistant Rubber Membrane Aeration Diffuser and 30’ roll of braided tubing

**Pro Air 60 Pond Aeration Kit**

Packaged Weight: 24 lb
The Aquascape Pro Air 60 Pond Aeration Kit provides effective oxygenation and water circulation in ponds up to 15,000 gallons.

- Comes complete with outdoor-rated, energy-efficient 45-Watt compressor
- Includes 2-Way Aeration Compressor Manifold, (2) 10’ clog-resistant Rubber Membrane Aeration Diffusers, and (2) 30’ rolls of braided tubing

Aquascape LED Lighting

Add a new dimension to your water feature by bringing it to life at night. With today’s busy lifestyle, it’s important to be able to enjoy your pond or landscape at any time of the day. The complete line of Aquascape Lighting makes enjoying your garden easy — day or night.

Aquascape LED Lighting combines style and simplicity. Our component fixtures include a die-cast metal housing finished with a protective coating, providing a durable finish that will hold up in all weather conditions. Aquascape LED Lighting can be used fully submersed or in traditional landscapes. Aquascape LED lights feature permanently sealed watertight fixtures and are backed by a limited full replacement warranty.
Garden and Pond LED Lights

- 40,000 hour bulb life
- Natural warm color light output 3000K
- Integrates easily with other 12 volt quick-connect components

---

Garden and Pond LED Spotlight Kit

#84030

Packaged Weight: 4 lb

Kit Includes:
- Three pre-wired 1-watt LED lights
- 6-Watt 12V Quick-Connect Transformer
- Automatic on/off photocell with digital timer

---

Garden and Pond Waterfall and Up Light

#84032

Packaged Weight: 1.1 lb
Dimensions: 2" diameter x 1.5"H
- Light output equivalent to a 10-watt halogen light
- 45 Lumens
- Integrated Cree LEDs

---

Garden and Pond 1-Watt LED Spotlight

#84031

Packaged Weight: 0.9 lb
Dimensions: 1.25" diameter x 2"H
- Light output equivalent to a 10-watt halogen light
- 45 Lumens
- Integrated Cree LEDs

---

Garden and Pond 3-Watt LED Spotlight

#84033

Packaged Weight: 1.75 lb
Dimensions: 3" diameter x 3"H
- Light output equivalent to a 20-watt halogen light
- 150 Lumens
- Integrated Cree LEDs

---

Garden and Pond 6-Watt LED Spotlight

#84034

Packaged Weight: 2 lb
Dimensions: 3" diameter x 3"H
- Light output equivalent to a 50-watt halogen light
- 340 Lumens
- Integrated Cree LEDs
LED Fountain Lights

- Integrated fitting for quick and easy installation in the top of decorative fountains
- 40,000 hour bulb life
- Powerful 2.5-Watt light
- Natural warm color light output 3000K
- Integrates easily with other 12-volt quick-connect components

LED Fountain Light
#84008
Packaged Weight: 0.6 lb
Dimensions: 1.5"L x 1.5"W x 2.5"H

LED Fountain Light with Transformer
#84009
Packaged Weight: 1.9 lb
Dimensions: 1.5"L x 1.5"W x 2.5"H

Path and Area LED Landscape Lights

Aquascape Path and Area LED Landscape Lights make it easy to illuminate any landscape, including areas surrounding waterfalls, ponds, and fountains, elegantly tying the water feature into the landscape. These energy-efficient LED lights provide beauty, safety, and visibility in any residential or commercial space. Two styles are available, ensuring there is a Path and Area light perfect for any design.

- Durable brass construction
- 3-Watt LED bulb included
- Heavy-duty stake included
- Integrates easily with other 12 volt quick-connect components

Path and Area 3-Watt LED Hat Top Landscape Light
#84063
Packaged Weight: 1.75 lb
Dimensions: 6.5"L x 6.5"W x 18.25"H

Path and Area 3-Watt LED Dome Top Landscape Light
#84064
Packaged Weight: 2 lb
Dimensions: 6.5"L x 6.5"W x 18.25"H
LED Lighting 6-Packs

Designed for quick and easy installation of Aquascape lighting components, Aquascape 6-Packs save you money, take up less space, reduce the amount of packaging, and are ideal for installations requiring multiple lights.

Garden and Pond 1-Watt LED Waterfall and Up Light 6-Pack
#84046
Packaged Weight: 7 lb
Packaged Dimensions: 14"L x 12"W x 7"H

Garden and Pond 1-Watt LED Spotlight 6-Pack
#84045

Packaged Dimensions: 13.75"L x 8"W x 10"H

Path and Area 3-Watt LED Dome Top Landscape Light 6-Pack
#84066
Packaged Weight: 11.5 lb
Packaged Dimensions: 13.75"L x 8"W x 10"H
Garden and Pond Photocell with Digital Timer

#84039

Packaged Weight: 0.75 lb
Dimensions: 2"L x 1.25"W x 3.25"H with a 36" cord
- Can be used to control Aquascape white and Color-Changing lights
- Auto on at dusk/off at dawn or 4-6-8 hour timer option
- Built-in memory setting in case of power loss
- Integrates easily with other 12 volt quick-connect components
- Up to 60-Watt capacity

Garden and Pond Quick-Connect Extension Cables

Lighting extension cables allow for simple extension of Aquascape white LED lighting. Ideal for use with our 12-volt Quick-Connect transformers and 3-way/6-way splitters. Not compatible with Aquascape Color-Changing Lighting.
- No need to cut wires
- Quick-connect system provides a weatherproof seal

Garden and Pond 25' Quick-Connect Lighting Extension Cable
#98998
Packaged Weight: 1 lb
25’ cord length

Garden and Pond 25' 5-Outlet Quick-Connect Lighting Extension Cable
#84023
Packaged Weight: 1 lb
25’ cord length

Garden and Pond Splitters

Provides a simple connection of 3 or 6 light fixtures to a single transformer. Multiple 3-way and 6-way splitters can be chained together to attach additional fixtures. Not compatible with Aquascape Color-Changing Lighting.

Garden and Pond 3-Way Quick-Connect Splitter
#98489
Packaged Weight: 0.5 lb
6" cord length

Garden and Pond 6-Way Quick-Connect Splitter
#84022
Packaged Weight: 0.75 lb
36" cord length
Color-Changing LED Lights

- Color-changing diodes provide an impressive range of color options
- White diode provides a true white when desired
- Integrates easily with Aquascape color-changing lighting accessories
- Requires Color-Changing Lighting Control Hub and standard 12-volt transformer

2-Watt LED Color-Changing Waterfall and Up Light
#84057
Packaged Weight: 1.1 lb
Dimensions: 2"L x 2"W x 1.5"H

4.5-Watt LED Color-Changing Spotlight
#84059
Packaged Weight: 1.75 lb
Dimensions: 3"L x 3"W x 3"H

8-Watt LED Color-Changing Spotlight
#84060
Packaged Weight: 2 lb
Dimensions: 3"L x 3"W x 3"H

LED Color-Changing Fountain Lights

- Color-changing and white diodes provide an impressive range of color options
- Integrates easily with Aquascape color-changing lighting accessories
- Integrated fitting for quick and easy installation in the top of decorative fountains

LED Color-Changing Fountain Light
#84072
Packaged Weight: 0.6 lb
Dimensions: 1.5"L x 1.5"W x 2.5"H
- Requires Color-Changing Lighting Control Hub and standard 12-volt transformer

LED Color-Changing Fountain Light Kit
#84055
Packaged Weight: 1.9 lb
Dimensions: 1.5"L x 1.5"W x 2.5"H
- Includes remote control and transformer
Color-Changing Lighting Control Hub

- Turn lights on and off or select between lighting color design options
- Remote control included
- 150-Watt lighting capacity
- Require standard 12-volt transformer (see page 59)

Color-Changing Lighting Extension Cables

- Allow for simple extension of Aquascape Color-Changing Lighting
- No need to cut wires
- Quick-connect fittings provide weather-proof connections

Color-Changing Lighting Splitters

- Provides a simple way to connect multiple color-changing lights to one power source
- Choice of 3-Way or 6-Way
- Color-changing quick-connect fittings provide weather-proof connections
Garden and Pond 12V Quick-Connect Transformers

Simple plug-in transformers provide an economical solution for operating low voltage lighting fixtures, including Aquascape white and color-changing lighting. Each transformer includes a single quick-connect cable port for adding a light. Multiple light fixtures can be added by using the 3-Way or 6-Way Quick-Connect Splitter.

- **Garden and Pond 60-Watt 12V Quick-Connect Transformer**
  - #98486
  - Packaged Weight: 3.5 lb
  - Dimensions: 3"L x 6"W x 3"H

- **Garden and Pond 20-Watt 12V Quick-Connect Transformer**
  - #98485
  - Packaged Weight: 1.75 lb
  - Dimensions: 4"L x 1.75"W x 2.5"H

- **Garden and Pond 6-Watt 12V Quick-Connect Transformer**
  - #98375
  - Packaged Weight: 1 lb
  - Dimensions: 3"L x 1.5"W x 2.25"H

- **Garden and Pond 150-Watt Transformer with Photocell**
  - #01002
  - Packaged Weight: 8 lb
  - Dimensions: 4"L x 7"W x 3.5"H
  - Includes 4, 6, 8 hour photocell intervals options, as well as manual on/off override.

- **Garden and Pond 60-Watt Transformer with Photocell**
  - #99070
  - Packaged Weight: 4 lb
  - Dimensions: 3.5"L x 7"W x 2.5"H
  - Includes 4, 6, 8 hour photocell intervals options.

**NEW** Redesigned Packaging
Automatic Dosing System

In order for water treatments to work correctly and to maintain optimum water quality, they should be added consistently and on a regular basis. The Aquascape Automatic Dosing System accurately and consistently applies your choice of specially-formulated water treatments, eliminating the guesswork and routine of manually adding water treatments to your water feature.

- Helps maintain optimum water quality
- Easy to use and fully programmable
- Can be used on almost any pond, fountain, or water feature
- Dependable and quiet operation

Each type of water feature has its own set of requirements to maintain optimal water quality. In order to provide optimum results, we have created two categories of treatment listed below.

<table>

# Water Treatments

## 1. Protect for Ponds
- All-natural formulation effectively protects pond fish
- Reduces fish stress, prevents parasites and infections, and accelerates healing
- Use after handling fish or performing cleanouts and water changes

### Protect for Ponds
- 8 oz / 236 ml
  - Packaged Weight: 0.6 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 5,000 gal / 18,900 L

### Protect for Ponds
- 16 oz / 473 ml
  - Packaged Weight: 1.2 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 10,000 gal / 37,800 L

### Protect for Ponds
- 32 oz / 946 ml
  - Packaged Weight: 2.3 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 20,000 gal / 75,600 L

### Protect for Ponds
- 1 gal / 3.78 L
  - Packaged Weight: 9.2 lb
  - 1 pump treats 600 gal / 2,268 L
  - 1 bottle treats 80,000 gal / 302,400 L

## 2. Prevent for Fountains
- Controls white-scale buildup, foam, stains, and unsightly water conditions, including debris buildup in the water and on the surface of fountains, rocks, or gravel
- Not for use with fish or plants

### Prevent for Fountains
- 8 oz / 236 ml
  - Packaged Weight: 0.6 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 5,000 gal / 18,900 L

### Prevent for Fountains
- 16 oz / 473 ml
  - Packaged Weight: 1.2 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 10,000 gal / 37,800 L

### Prevent for Fountains
- 32 oz / 946 ml
  - Packaged Weight: 2.3 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 20,000 gal / 75,600 L

### Prevent for Fountains
- 1 gal / 3.78 L
  - Packaged Weight: 9.2 lb
  - 1 pump treats 600 gal / 2,268 L
  - 1 bottle treats 80,000 gal / 302,400 L

## 3. Clean for Fountains
- Cleans and clarifies fountains with standing water, plants, or fish
- Contains a flocculant clarifier and phosphate binder to clear and prevent suspended debris

### Clean for Fountains
- 8 oz / 236 ml
  - Packaged Weight: 0.6 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 5,000 gal / 18,900 L

### Clean for Fountains
- 16 oz / 473 ml
  - Packaged Weight: 1.2 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 10,000 gal / 37,800 L

### Clean for Fountains
- 32 oz / 946 ml
  - Packaged Weight: 2.3 lb
  - 1 pump treats 100 gal / 378 L
  - 1 bottle treats 20,000 gal / 75,600 L

### Clean for Fountains
- 1 gal / 3.78 L
  - Packaged Weight: 9.2 lb
  - 1 pump treats 600 gal / 2,268 L
  - 1 bottle treats 80,000 gal / 302,400 L
**MAINTAIN**

1. Maintain for Ponds reduces maintenance and helps maintain optimum water quality by combining our most effective treatments into one powerful treatment. The formulation includes a beneficial bacteria blend, phosphate binder, flocculant, and dextoxifier, resulting in a healthy, crystal-clear, maintenance-free pond.

**CLEAN**

2. Clean for Ponds uses a powerful blend of heterotrophic bacteria to digest organic waste or sludge caused by uneaten fish food, fish waste, and leaves or debris, naturally cleaning the rocks and gravel. Reducing organic waste helps keep ponds and pond filters clean while optimizing water clarity and quality.

**CLEAR**

3. Clear for Ponds uses a concentrated formulation of clarifiers to effectively resolve existing water quality problems, including cloudy or discolored water and issues with debris attached to rocks and gravel. The formulation also contains a phosphate binder which works to prevent issues with water clarity and debris buildup.

**PROTECT**

4. Protect for Ponds uses an all-natural formulation of tea tree oil and other plant-based biopolymers to effectively protect pond fish, reducing fish stress, preventing parasites and infections, and accelerating healing of superficial wounds, scrapes, and breeding abrasions. Protect is great for use after handling fish or performing cleanouts and water changes.

**Automatic Dosing Treatment Reference Chart for Ponds**

**PREVENT**

1. Prevent for Fountains keeps fountains and water features clean and clear, controlling white-scale buildup, foam, stains, and unsightly water conditions without damaging fountain surfaces. The formulation contains a special blend of clarifiers, designed to clear and prevent debris buildup in the water and on the surface of fountains, rocks, or gravel. Prevent for Fountains is not intended for use in water features containing fish or plants.

**CLEAN**

2. Clean for Fountains effectively cleans and clarifies fountains with standing water, plants, or fish, significantly reducing maintenance and issues with water quality. The formulation contains a flocculant and powerful phosphate binder to help clear and prevent unsightly suspended debris. Clean for Fountains is safe for use with fish and plants.
Beneficial Bacteria

Provides clean, clear, and healthy water conditions and reduces pond maintenance.

- Effectively supports the nitrogen cycle
- Safe for fish, plants, pets, and wildlife

### SAB Stream & Pond Cleaner
- **4.4 oz / 125 g**
- **#98898**
- Packaged Weight: 0.3 lb
- 1 scoop treats 120 gal / 454 L
- 1 container treats 1,200 gal / 4,536 L

### Barley Straw Extract
- **8 oz / 236 ml**
- **#98903**
- Packaged Weight: 0.6 lb
- 1 pump treats 100 gal / 378 L
- 1 bottle treats 5,000 gal / 18,900 L

### Rapid Clear Flocculant
- **12 oz / 340 ml**
- **#98879**
- Packaged Weight: 0.6 lb
- 1 pump treats 100 gal / 378 L
- 1 bottle treats 5,000 gal / 18,900 L

### Barley Straw Extract
- **16 oz / 473 ml**
- **#98904**
- Packaged Weight: 1.2 lb
- 1 pump treats 100 gal / 378 L
- 1 bottle treats 10,000 gal / 37,800 L

### Barley Straw Extract
- **32 oz / 946 ml**
- **#98905**
- Packaged Weight: 2.3 lb
- 1 pump treats 100 gal / 378 L
- 1 bottle treats 20,000 gal / 75,600 L

### SAB Stream & Pond Cleaner
- **8.8 oz / 250 g**
- **#98900**
- Packaged Weight: 0.6 lb
- 1 scoop treats 120 gal / 454 L
- 1 container treats 2,400 gal / 9,072 L

### SAB Stream & Pond Cleaner
- **1.1 lb / 500 g**
- **#98901**
- Packaged Weight: 1.2 lb
- 1 scoop treats 120 gal / 454 L
- 1 container treats 4,920 gal / 18,597 L

### SAB Stream & Pond Cleaner
- **7 lb / 3.2 kg**
- **#9886**
- Packaged Weight: 7.8 lb
- 1 scoop treats 1,420 gal / 5,368 L
- 1 container treats 31,240 gal / 118,087 L

### Problem Solving (Continued)

#### SAB Stream & Pond Cleaner
- Breaks down debris
- Maintains a balanced ecosystem
- Reduces pond maintenance
- Phosphate binder

#### Barley Straw Extract
- Promotes clean, clear water conditions in ponds and streams
- Starts working instantly
- Concentrated formulation with added enzymes

#### Rapid Clear Flocculant
- Quickly clears cloudy water by clumping debris
- Works within 24 hours
- For best results, use in combination with a Rapid Clear Fine Filter Pad (#80001)

#### SAB Stream & Pond Cleaner
- **4.4 oz / 125 g**

### Fountain Treatments (Continued)

#### Fountain Maintenance
- Safely eliminates scale and debris build-up from water features
- Maintains the beauty of your water feature
- Helps maintain perfect water quality
- Prevents white scale build-up without damaging feature
- Safe for animals

**Fountain Maintenance**
- 8 oz / 236 ml
  - Packaged Weight: 0.6 lb
  - 1 pump treats 10 gal / 37.8 L
  - 1 bottle treats 500 gal / 1,890 L
  - #40007

**Fountain Maintenance**
- 16 oz / 473 ml
  - Packaged Weight: 1.2 lb
  - 1 pump treats 10 gal / 37.8 L
  - 1 bottle treats 1,000 gal / 3,785 L
  - #96056

#### Fountain Scale Free
- 8 oz / 236 ml
  - Packaged Weight: 0.6 lb
  - 1 pump treats 10 gal / 37.8 L
  - 1 bottle treats 500 gal / 1,890 L
  - #98907

- Helps keep water clean and clear of hard water deposits, white scale, and foam
- Adds the fresh clean scent of lavender
- Safe for animals

#### Fish Treatments

#### Pond Salt
- Reduces the effects of nitrite levels toxic to fish
- Helps restore natural electrolytes
- Repairs natural slime coat
- Prevents disease

**Pond Salt**
- 2 lb / 0.9 kg
  - Packaged Weight: 2 lb
  - 1 scoop treats 190 gal / 718 L
  - 1 container treats up to 1,520 gal / 5,745 L
  - #99416

**Pond Salt**
- 9 lb / 4.08 kg
  - Packaged Weight: 9 lb
  - 1 scoop treats 190 gal / 718 L
  - 1 container treats up to 6,840 gal / 25,835 L
  - #99417

**Pond Salt**
- 40 lb / 18.16 kg
  - Packaged Weight: 40 lb
  - 1 scoop treats 190 gal / 718 L
  - 1 container treats up to 30,400 gal / 114,912 L
  - #40003
Aquascape Professional Grade water treatments are 25% more concentrated than the consumer equivalent.

- Measuring cups make it easy to apply larger doses
- Dosage guide on measuring cup for easy application

**Beneficial Bacteria Professional Grade**
1 gal / 3.78 L
#30406
Packaged Weight: 9 lb
1 scoop treats 6,000 gal / 22,680 L
1 bottle treats 96,000 gal / 362,880 L
- Provides clean, clear, and healthy water conditions
- Contains photosynthetic bacteria
- Contains marigold and vitamin B

**Beneficial Bacteria Concentrate Professional Grade**
9 lb / 4.08 kg
#30407
Packaged Weight: 9.3 lb
1 scoop treats 48,000 gal / 181,440 L
1 container treats 672,000 gal / 2,540,160 L
- Provides clean, clear, and healthy water conditions
- Contains 8 strains of bacteria
- Contains photosynthetic bacteria

**Cold Water Beneficial Bacteria Professional Grade**
1 gal / 3.78 L
#98895
Packaged Weight: 9 lb
1 scoop treats 6,000 gal / 22,680 L
1 bottle treats 96,000 gal / 362,880 L
- Provides clean, clear, and healthy water conditions
- Reduces ammonia, nitrite, and organic debris
- Ideal for use in water colder than 40°F (5°C)

**Pond Starter Bacteria Professional Grade**
1 gal / 3.78 L
#40011
Packaged Weight: 9 lb
1 scoop treats 48,000 gal / 181,440 L
1 container treats 672,000 gal / 2,540,160 L
- Establishes biological ecosystem
- Great for spring start-up and new ponds

**Rapid Clear Flocculant Professional Grade**
1 gal / 3.78 L
#30412
Packaged Weight: 9 lb
1 scoop treats 48,000 gal / 181,440 L
1 container treats 672,000 gal / 2,540,160 L
- Clears discolored or cloudy water
- Clumps suspended debris (flocculation)
- Clears most ponds in 24 hours

**Pond & Debris Clarifier Professional Grade**
1 gal / 3.78 L
#40010
Packaged Weight: 9 lb
1 scoop treats 48,000 gal / 181,440 L
1 container treats 672,000 gal / 2,540,160 L
- Quickly cleans unsightly debris
- Restores water quality
- Reduces pond maintenance

## Lake and Large Pond Treatments (Continued)

**Lake Flocculant Clarifier**

1 gal  
#40023

Packaged Weight: 9.2 lb

One gallon treats 1/4 acre for 1-3 months
- Quickly clears cloudy water caused by suspended particles
- Optimized to clarify clay, mineral material, and sediment issues
- Significantly reduces maintenance

**Lake Bacteria Packs**

- Restores the ecosystem, keeping water clean, clear, and healthy
- Easy-to-use water soluble packs make it easy to treat hard to reach areas
- Significantly reduces maintenance
- Fortified with pre-biotics to enhance water quality

**Lake Treatment Booster Packs**

- Turbo boosts the effects of lake water treatments
- Easy-to-use water soluble packs make it easy to spot-treat and treat hard to reach areas
- Adds oxygen and elements directly to the water to accelerate nutrient uptake and sludge digestion
- Charges bacterial growth by up to ten times
- Ideal for use with Lake Sludge Remover Packs, Lake Bacteria Packs, and Lake Phosphate Binder Packs
- Great for non-aerated or highly eutrophic bodies of water

Pond fish are often vulnerable to a variety of predators, including large birds such as the pesky blue heron. Fortunately, Aquascape provides several products to help pond owners prevent predators from harming their prized fish. Our popular ornamental deterrents help keep koi and other pond fish safe.

**Floating Alligator Decoy**

#93000

Packaged Weight: 2 lb

Add a little fun to your pond while protecting your valuable fish. The natural body movement will deter herons and other predators from visiting your pond.

- Three hinged body parts allow gator to float freely and appear lifelike, deterring pond predators
- Detailed in non-fading, no-glare, all-weather paint

**Blue Heron Decoy**

#81030

Packaged Weight: 32.7 lb

Product Dimensions: 25"L x 7"W x 26.5"H

Deter herons from coming to your pond by tricking them into thinking another heron is already there.

- Looks life-like
- Quick and easy set-up
- Hand-painted with non-fading, no-glare, all-weather paint
- Surface treated to prevent paint flaking
- Molded from durable, lightweight polymer
SEASONAL CARE

Selecting Your Seasonal Care Products

The following components are vital to ensure that your water feature is properly maintained and your fish are cared for in the colder months of the year.

**Cold Water Beneficial Bacteria (for spring and fall) — see page 67 for more information**

Beneficial bacteria living in the biological filter and throughout the rocks and gravel in the pond are a key component to achieving crystal clear water and reducing pond maintenance. The bacteria, similar to aquatic plants, consume excess nutrients but are also capable of breaking down organic debris. It is important to the pond’s ecosystem for these maintenance microbes to become established as early in the spring as possible. Aquascape Cold Water Beneficial Bacteria is perfect for both spring and fall because it works at temperatures below 40°F and contains pure strains of concentrated beneficial bacteria that go to work quickly, cleaning and balancing your pond.

**Premium Cold Water Fish Food (for spring and fall) — see page 83 for more information**

In the colder months of the year, when the water temperature is below 60°F, your fish’s metabolism slows down in preparation for hibernation. It is important during these times to either eliminate fish feeding from your daily regimen or switch to a food that is formulated for low water temperatures. Aquascape Premium Cold Water Fish Food is scientifically formulated to provide quality nutrition to all pond fish, including goldfish and koi. The inclusion of spirulina and wheat germ helps make the food easier to digest in colder water temperatures.

**AquaForce® — see page 38 for more information**

In the colder months, it is important to start thinking about protecting your fish by ensuring that there’s a hole open in the ice all winter long. Our AquaForce® pump is a recirculating bubbler pump designed to sit in the pond and oxygenate the water. The flow from the pump will bubble at the surface of the pond and maintain an opening in the ice. By keeping a hole open in the ice, you keep the water oxygenated and allow gases to escape.

**Pond Aeration — see page 48 for more information**

Pond aerators can be positioned 1.5–2 feet below the surface of the pond to maintain a hole in surface ice and provide additional oxygenation for the colder seasons.
Seasonal Care

300-Watt Pond De-Icer

Aquascape 300-Watt Pond De-Icer is ideal for keeping a small opening in the ice during cold winter months to ensure proper gas exchange and help keep fish alive during the winter.

- Helps increase pond oxygen levels
- Stainless steel construction prevents corrosion and cracking
- Low cost to operate
- Built-in LED light indicates when heater is in use

Features of the 300-Watt Pond De-Icer

1. High quality stainless steel housing
2. LED light indicates when the unit is operating

Submersible Pond Thermometer

Monitor pond temperature throughout the year to adjust fish feeding and water treatment applications during seasonal changes.

Protective Pond Netting

Aquascape Protective Pond Netting keeps predators out while catching leaves and falling debris before they enter the pond. The reusable netting is easy to install and resists tearing. Each net comes complete with landscape stakes, making it simple and easy to cover your water feature.

- Keeps falling leaves and debris from entering the pond
- Protects fish from predators
- Comes complete with stakes to secure netting into place
- Quality woven poly material is reusable and resists tearing

Fish, like all creatures, need healthy, nutrient-rich food to thrive. Aquascape fish foods contain probiotics that aid in digestion, optimize growth rates, and reduce fish waste. Quality ingredients, including multivitamins and stabilized vitamin C, provide superior nutrition and will not pollute pond water. Aquascape fish foods are scientifically formulated to provide all pond fish, including koi and goldfish, premium quality nutrition at an affordable price.

- Floating pellet ideal for all pond fish
- Keeps pond water clean and clear
- Includes stabilized multivitamin and probiotics
- Will not break apart and cloud water
- Contains high-quality protein

**Fish Food**

**Koi Krunchies**

Packaged Weight: 1.1 lb
Aquascape Koi Krunchies are a wonderful addition to your fish's regular diet and are ideal for hand feeding goldfish, koi, and other pond fish. Aquascape Koi Krunchies contain real fruit flavors and are a great source of vitamin C, which is linked to proper tissue formation, proper digestion, and disease resistance.
- Great for hand feeding all pond fish
- Contains quality, natural ingredients
- Low waste

**Premium Fish Food Flakes**

Packaged Weight: 0.4 lb
Aquascape Premium Fish Food Flakes are scientifically formulated to provide premium nutrition to all pond fish including goldfish and koi. The inclusion of plankton and shrimp meal help make this food irresistible to pond fish, including smaller fish and babies known as fry.
- Keeps pond water clean and clear
- Includes stabilized multivitamin
- Will not break apart and cloud water
- Contains high-quality protein
- Promotes brilliant colors on all pond fish

Nets

Kid’s Pond Explorer Net
#98556
Packaged Weight: 0.2 lb
10” x 7” with 12” Handle
Provides kids with a fun way to interact with water feature.

Collapsible Pond and Fish Net
17” Black Coarse Mesh
#81031
Packaged Weight: 1.1 lb
Ideal net for catching and handling fish.

Pond Net with Extendable Handle
#98558
Packaged Weight: 0.6 lb
32” handle, extends to 63”
This small 12” x 7” net is designed for general maintenance and handling pond fish.

Pond Skimmer Net with Extendable Handle
#98559
Packaged Weight: 0.6 lb
32” handle, extends to 63”
This small 12” x 7” net is great for scooping up debris in tight spaces.

Professional Nets

Heavy Duty Pond Net with Extendable Handle
#98560
Packaged Weight: 1.4 lb
36” handle, extends to 69”
Great for general maintenance, handling larger pond fish, and removing large amounts of debris, cutting down on maintenance time.

Heavy Duty Pond Skimmer Net with Extendable Handle
#98562
Packaged Weight: 1.4 lb
36” handle, extends to 63”
Great for effectively removing large amounts of debris, cutting down on maintenance time.

Professional Fish Net with Extendable Handle
#98561
Packaged Weight: 2.1 lb
22” diameter head, 32” handle, extends to 69”
Super soft netting and shallow design specifically designed to handle and cradle larger pond fish including koi preventing them from being snagged in the mesh.

Professional Grade Pond Net
#50000
Packaged Weight: 2 lb
Great for handling large fish and general maintenance.

Professional Grade Pond Skimmer Net
#50001
Packaged Weight: 2 lb
Ideal for removing small floating and suspended debris from the pond water.

Pond Shark
#74004
Packaged Weight: 1.1 lb
Extends up to 60”
Versatile pond net with innovative raking and scraping blades.

Pond Shark Pro
#74005
Packaged Weight: 1.1 lb
Extends up to 96”
Versatile, professional-quality pond net with innovative raking and scraping blades.

- Reduces the effects of nitrite levels toxic to fish
- Helps restore natural electrolytes
- Repairs natural slime coat
- Prevents disease
Aquatic plants are an important part of the water garden. They provide beauty and naturalization with a huge array of plant choices. Most importantly, they help balance the pond’s ecosystem and provide valuable biological filtration that removes nitrogen, ammonia, nitrates, and other minerals from pond water. These excess nutrients are often the cause of unsightly water conditions. The end result helps to minimize pond maintenance, leaving more time to enjoy your pond. Without aquatic plants, your pond would not be able to function as a complete ecosystem.

Pond plants can be classified into a few main categories: waterlilies, marginal plants, floaters, and oxygenators. Plants can also be put into two basic types known as “tropical” and “hardy.” Hardy plants will over-winter in colder climates and tropical plants are more suited to warmer climates, although tropical plants are often used as annuals in colder climate zones.
Floating Plant Island

Packaged Weight: 0.4 lb
Dimensions: 15"L x 11"W x 4"H

The Aquascape Floating Plant Island is ideal for displaying plants in deeper areas of the pond or where there are no plant shelves. The floating planter keeps the soil intact and lets water in while protecting plants from fish. Constructed to stay afloat at the surface of the pond, the Floating Plant Island provides stunning options for displaying plants within the pond.

Aquatic Planters

Aquascape Aquatic Planters are ideal for all pond plants. Made from fine, porous material, the planters allow water in while preventing soil from entering your pond. The flexibility of Aquatic Planters makes it simple to place plants between rocks and other form-fitting areas. Aquatic Planters blend into their surroundings and will not break or crack like traditional plastic planters.

- Can be molded to fit in tight spaces
- Will not break or crack
- Keeps soil from escaping

Aquatic Planter 6" x 6" (2-pack) #98501
Packaged Weight: 0.1 lb

Packaged Dimensions: 7.5"L x 7.5"W x 7.75"H
Decorative Water Features

Decorative water features include Fire Fountains, container water gardens, stand-alone fountains, bubbling rocks or urns, spitters, and any fountain that incorporates an in-ground reservoir.

Fire Fountains
Fire fountains combine the beauty and elegance of fire and flowing water in a durable, self-contained GFRC water feature that sets up in minutes.

Container Water Gardens
Container water gardens are great for people who do not have the space or budget for an ecosystem pond, providing a way to add a miniature pond to any location.

Decorative Spitters
Decorative spitters are often used to add a whimsical touch or create a focal point and water movement to existing ponds or container water gardens. Decorative spitters can also be incorporated into traditional landscapes when combined with a small reservoir or AquaBasin® Mini.

Bubbling Stone Fountains and Spillway Bowls
These larger water features are typically set atop an underground reservoir known as an AquaBasin®. A water pump contained within the AquaBasin keeps circulating the water over the feature.
Fire Fountains

The Aquascape Fire Fountain provides the beauty and elegance of fire and flowing water in a bowl-shaped GFRC water feature. The self-contained water feature sets up in minutes. A fire feature in the center makes this fountain an ideal focal point or centerpiece to any outdoor setting.

- Welcome Kit
Spillway Bowl, Basin, and Stand

The Aquascape Spillway Bowl, Basin, and Stand have a beautiful and unique patina made from durable GFRC (glass fiber reinforced concrete). They are lightweight and easy to install in unlimited possibilities. Install them as a disappearing water feature or link several together for an inspired display. The stands create the ideal elevation between the bowl and basin.

**Spillway Bowl 32”**

- #78204
- Packaged Weight: 71 lb
- Dimensions: 32”L x 32”W x 14.5”H

Ultra 2000 Water Pump #91010

Medium Rippled Urn Landscape Fountain Kit
#78271
Packaged Weight: 164 lb
Kit Includes:
• Medium Rippled Urn
• AquaBasin® 45
• Ultra 1,100 Water Pump
• Clear Vinyl Tubing

Fire Fountain Add-On Kit for Rippled Urns
#78267
Packaged Weight: 4.5 lb
Packaged Dimensions: 10.5"L x 10.5"W x 7.5"H
The AquaBasin® 30 and 45 are engineered to provide a trouble-free, easy-to-install fountain basin for a wide variety of decorative water feature installations, including natural stone, brass, and resin fountains. Their innovative design provides features and benefits that eliminate guesswork, improve water circulation, increase accessibility, and ensure a lifetime of enjoyment.

- Professional-grade, high-density polyethylene is built to last and backed by a lifetime warranty
- Structural deck cylinders reinforce basin strength and provide endless plumbing and lighting configurations
- Large, flat deck design makes it easy to set and position your choice of fountain
- Large corner pump access panel simplifies pump access, fits larger pumps, and sits elevated above the deck, preventing gravel from falling into the basin when removing the lid
- Square shape maximizes water storage capacity
- Protects pump and reduces maintenance

Features and Benefits of the AquaBasin® 45 and 30

1. Large corner pump access panel fits larger pumps and sits elevated to prevent gravel from falling into the basin
2. Pump and valve controls are easy to access for maintenance and adjusting water flow
3. Large, flat deck design makes it easy to set and position fountains
4. Professional-grade, high-density polyethylene construction
5. Drainage slots throughout the deck maximize water circulation
6. Structural deck cylinders provide endless plumbing and lighting port configurations, while reinforcing basin strength
7. Internal plumbing support allows plumbing to sit below the deck as it travels to the fountain(s), making installation simple and keeping plumbing out of sight

Stainless Steel WaterWall Spillway

Incorporate beautiful, low-maintenance formal waterfalls into any design using the Aquascape Stainless Steel WaterWall Spillway.

Stainless Steel WaterWall Spillway

#58066

Packaged Weight: 9 lb

Kit Includes:
- Stainless steel construction for strength and corrosion resistance
- Clog-free, open-top design reduces maintenance
- 16" wide spillway and 1" plumbing port handles pumps up to 2,000 GPH

Stainless Steel WaterWall Spillway Kit

#58080

Packaged Weight: 40 lb

Kit Includes:
- Stainless Steel Waterfall Spillway (16")
- AquaBasin® Medium with splash pad
- Ultra Pump with plumbing components
- Garden and Pond 1-Watt LED Waterfall and Up Light
- Garden and Pond 6-Watt 12V Quick-Connect Transformer
- Compact Water Fill Valve
Liner, underlayment, and geotextile are the pond’s foundation. Educate yourself on the selection of liners that are available. Don’t consider using a liner if it doesn’t come with a long-term warranty. It is important to always determine whether the liner you choose is safe for fish that may inhabit the pond.

Underlayment is installed before the liner in order to prevent punctures that may occur from rough or rocky ground. The underlayment serves a couple of purposes. It not only provides protection for the liner against rocky soils and roots, but it allows the ground to breathe from underneath. The earth releases gases and the fabric allows the gases to escape from underneath the liner rather than becoming trapped, causing gas bubbles to push the liner up into the pond.
45 mil EPDM Liner Rolls

Aquascape 45 mil fish-safe EPDM pond liner leads the industry in quality and reliability. Backed by an industry leading 20-year guarantee, Aquascape pond liner is the choice of discerning pond professionals.

- Superior elongation and lay-flat characteristics
- Exceptional resistance to solar UV, ozone, and oxidation
- Ease of installation with no special tools required

Concrete Cloth, Rock Pad, and Woven Microgrid Geotextile

- **Concrete Cloth**
  - Roll—3.375’ x 30’
  - #85026
  - Packaged Weight: 141 lb
  - Flexible cement impregnated fabric that hardens after hydration
  - Acts as a protective barrier between liner and large rocks
  - Protects liner from digging animals, vandalism, and more

- **Rock Pad**
  - 3’ x 3’
  - #25000
  - Packaged Weight: 1.1 lb
  - The rock pad is an extra thick 3’ x 3’ non-woven polypropylene fabric that can be laid down on the liner before placing those large rocks.

- **Rock Pad**
  - Roll—15’ x 150’
  - #25001
  - Packaged Weight: 260 lb

- **Woven Microgrid Geotextile**
  - 8’ x 225’
  - #42016
  - Packaged Weight: 65 lb

- **Woven Microgrid Geotextile**
  - 4’ x 4’
  - #42015
  - Packaged Weight: 0.5 lb

aquascapeinc.com
Flexible PVC Pipe makes installations quick and easy. The main advantage of this high-quality pipe is that it has the durability to be glued into standard schedule 40 PVC fittings.
- Simplifies plumbing layouts and installations
- Sun, ozone, and mildew resistant—NOTE: we do not recommend placing flexible PVC pipe in continuous sunlight
- Made in the USA

Kink-Free Pipe is an excellent choice for quick and easy installations without the use of PVC cement. This high quality Kink-Free Pipe is extremely flexible and resistant to crimping or collapsing around tight curves. Kink-Free Pipe works best when used with traditional stainless steel hose clamps and barbed fittings.
- Simplifies plumbing layouts and installations
- Internal spiral prevents crushing and smooth inner wall reduces friction and maximizes flow
- Made in the USA

Pre-cut Kink-Free Pipe is ideal for recirculating water in decorative fountains and other water features without the use of PVC cement. The pieces are cut and packaged in convenient six-foot sections, ideal for installations requiring smaller lengths of pipe.
- Internal spiral prevents crushing and smooth inner wall reduces friction and maximizes flow
- Works best when used with traditional barbed fittings and stainless steel hose clamps
- Made in the USA

Black Vinyl Tubing is ideal for recirculating water in fountains and other water features without the use of PVC glue. Our non-toxic, vinyl tubing is fish-safe, allowing for use in water features containing fish and plants.
- Durable construction
- Prevents kinking
- Flexibility makes installation quick and easy

Plumbing Materials provided by Aquascape include a complete selection of check valves, automatic water fill valves, and a variety of accessories, making it easy to complete any water feature with high quality plumbing products.
- Simplifies maintenance and installation
- Durable, professional quality products
- Easy to adapt to a variety of pipe types and sizes

### Check Valves and Flow Control Valves

#### Dual Union Check Valve 2.0

- **Part Number**: #48026
- **Weight**: 10.9 lb
- The Dual Union Check Valve 2.0 provides a professional pump and plumbing connection inside skimmer filter systems, as well as Pondless® Water Vaults.
  - Connects the pump to water feature plumbing
  - Innovative reversible fittings allow for universal application
  - Prevents water backflow when the pump is not operating
  - Dual-union, tool-free design makes maintenance quick and easy
  - Height extendable for larger filters and pumps

#### Dual Union 3" CVA Check Valve

- **Part Number**: #29098
- **Weight**: 0.7 lb
- The Dual Union 3" CVA Check Valve is ideal for larger installations that use large pumps and filters. Heavy-duty, dual-union design ensures years of trouble-free use.

#### 2-Way Flow Control Valve

- **Part Number**: #88005
- **Weight**: 1 lb

---

Fittings Included:
- 2 x Reversible 2" MPT x 2" Slip
- 1 x Reversible 1.5" FPT x 2" Slip
Water Fill Valves

Aquascape Water Fill Valves automatically add water to features when needed.

- Reduces time-consuming maintenance versus manually filling with a hose
- Helps protect pump from running dry
- Eliminates large water chemistry swings (including chlorine/chloramine levels) that occur during manual top-offs

### Compact Water Fill Valve

**#88006**

Packaged Weight: 0.3 lb

- Up to 1.5 gallons per minute flow rate at a working pressure of 0-100 PSI
- Small size allows it to fit into any skimmer filter, Pondless® Waterfall Vault, or decorative water feature application
- Includes fittings to connect to a standard garden hose, 1/4" poly-pipe, 1/2" poly-pipe, 1/2" pvc pipe (pipe sold separately)

### Water Fill Valve 200

**#29272**

Packaged Weight: 0.7 lb

- Up to 3 gallons per minute flow rate at a working pressure of 0-100 PSI
- Reliable mechanical arm-style fill valve
- Brass hardware with poly float
- Includes fittings to connect to 1/2" poly-pipe or 1/2" pvc pipe (pipe sold separately)

### Hudson Water Fill Valve

**#29469**

Packaged Weight: 1.2 lb

- Up to 1.5 gallons per minute flow rate at working pressure of 8-65 PSI
- Works great in Signature Series Pond Skimmers and Pondless® Waterfall Vault
- Mounting plate allows 4-inch setting adjustments
- Includes quick-connect fitting for 1/4" poly pipe
- Can also be used with ½" PVC by using the Fill Valve Irrigation Conversion Kit (Item #01008)

### Water Fill Valve Accessories

**Fill Valve Spigot 1/4" Quick-Connect**

**#07000**

Packaged Weight: 0.2 lb

Connects ¼“ poly pipe to garden spigot.

**Garden Hose Adapter Assembly**

**#29517**

Packaged Weight: 0.2 lb

Connects ½“ poly pipe to garden spigot.

**Fill Valve Irrigation Conversion Kit**

**#01008**

Packaged Weight: 0.05 lb

Converts the ¼“ Hudson Water Fill Valve up to ½“ poly pipe or PVC.

**WFV Poly Pipe Roll**

- 1/4" x 100’
  **#29350**

Packaged Weight: 1.3 lb

- ½" x 100’
  **#29470**

Packaged Weight: 6.1 lb
Whether you are a do-it-yourselfer or professional water feature contractor, Aquascape has all the pieces and parts you need for successful installation or repair. Installation tools, spare parts, and accessories are available individually or as part of a kit. Installation tools located within this section of the catalog include the following.

- Foam
- Foam Guns
- Patches
- Silicone
- Glue
**Economy Foam Gun Applicator**  
#54003  
Packaged Weight: 1.1 lb  
We’ve added an economy model of our popular professional-grade foam gun. This lower-priced foam gun provides an attractive price point so that all contractors, no matter how many features they build, can afford to add a foam gun to their pond-building tool kit. To be used with Professional Black Waterfall Foam.

**Professional Foam Gun Applicator**  
#29268  
Packaged Weight: 0.8 lb  
Aquascape Professional Foam Gun Applicator is designed to create an air and moisture-tight seal between the gun and the can, allowing for maximum foam yield and minimal waste. To be used with Professional Black Waterfall Foam.

**Professional Foam Gun Kit**  
#22013  
Packaged Weight: 13.5 lb.  
Kit includes:  
- Case  
- Professional Black Waterfall Foam  
- Professional Foam Gun Applicator  
- Professional Foam Gun Cleaner

**Professional Black Waterfall Foam**  
#30096  
Packaged Weight: 2.2 lb  
24 oz. can of expandable Professional Black Waterfall Foam. Equivalent to five Pond and Waterfall Foam Sealant. To be used with foam guns (sold separately).

**Professional Foam Gun Cleaner**  
#22011  
Packaged Weight: 1.1 lb  
A handy cleaner to flush the foam gun clean if it is not working properly. It will also remove uncured foam.

**Installation Kit**  
#22008  
Packaged Weight: 2.2 lb  
Kit includes:  
- Liner Patch  
- Christy’s Red Hot Blue Glue  
- Black Silicone Sealant  
- Pond and Waterfall Foam Sealant

**Pond and Waterfall Foam Sealant**  
#21053  
Packaged Weight: 1.2 lb  
No gun applicator needed! Easy to use for the beginner or do-it-yourselfer. Convenient and economical for a small project or the quick touch-up on a larger project. Also sold as part of our Installation Kit (#22008).

**Black Silicone Sealant**  
4.7 oz  
#22010  
Packaged Weight: 0.4 lb  
- Used for sealing joints where liner attaches to biofilter lip and the skimmer faceplate  
- Fish-safe

**Black Silicone Sealant**  
10.1 oz  
#29186  
Packaged Weight: 0.6 lb  
- Used for sealing joints where liner attaches to biofilter lip and the skimmer faceplate  
- Fish Safe
## Installation Tools (Continued)

### Clear Silicone Sealant
- **10.1 oz**
- **#82000**
- Packaged Weight: 0.6 lb
- Used for sealing joints where liner attaches to biofilter lip and the skimmer faceplate
- Fish Safe

### Cleanout Pump
- **#45033**
- Packaged Weight: 25 lb
- Great for pond cleanouts and installation wash-downs
- 4,200 GPH for fast pump-outs
- Pumps water down to ¼” off the bottom

### Cleanout Pump Discharge Hose 50’
- **#48019**
- Packaged Weight: 14.75 lb
- Heavy-duty cleanout discharge hose engineered for flexibility and optimal flow
- Swivel cuff fitting prevents kinking or tangling, allowing easy movement around the water feature

### Firestone® QuickSeam Pond Liner Repair Kit
- **#42023**
- Packaged Weight: 0.5 lb
- Kit includes:
  - 6” x 6” QuickSeam patches
  - Bottle of LVOC Primer (2 oz/57 ml)
  - Scrubber pad
  - Patch roller
  - Pair of disposable gloves

### Firestone® QuickScrubber Kit
- **#54009**
- Packaged Weight: 0.75 lb
- Kit consists of 30 scrub pads and 4 holders designed for the application of Firestone® QuickPrime Plus—EPDM Liner Seaming Tape Primer.

### Firestone® QuickPrime Plus—EPDM Liner Seaming Tape Primer
- 1 qt. / 0.95 L
- **#54008**
- Packaged Weight: 1 lb
- QuickPrime Plus is designed to clean and prime EPDM liner prior to seaming.

### EPDM Liner Patch 6”
- **#22018**
- Packaged Weight: 0.1 lb
- This 6” self-adhesive patch quickly repairs holes, tears, and cuts in liner.

### EPDM Liner One-Sided Cover Tape
- **6” x 25’**
- **#22003**
- Packaged Weight: 5.8 lb

### EPDM Liner Double-Sided Seam Tape
- **3” x 25’**
- **#22017**
- Packaged Weight: 1.5 lb

### Christy’s Red Hot Blue Glue
- **4 oz**
- **#29969**
- Packaged Weight: 0.4 lb
- The original all-weather, wet or dry PVC cement.

### EPDM Liner One-Sided Cover Tape
- **6” x 100’**
- **#22005**
- Packaged Weight: 20 lb

### EPDM Liner Double-Sided Seam Tape
- **3” x 100’**
- **#22020**
- Packaged Weight: 7.8 lb
RAINWATER HARVESTING

Why Harvest Rainwater?

The Aquascape Rainwater Harvesting System (formerly known as RainXchange®) is a sustainable solution for water conservation and stormwater management.

Water Conservation

• According to the World Wildlife Fund, 1.1 billion people worldwide lack access to water and by 2025, two-thirds of the world’s population may face water shortages.*

• Capturing and reusing rainwater reduces the community’s demand on the municipal water supply, reduces the owner’s water bills, and helps avoid strict water schedules.

Stormwater Management

• According to the EPA, stormwater run-off is one of the main reasons that our lakes, rivers, and estuaries are not clean enough for fishing or swimming.**

• Rainwater harvesting is a solution for managing stormwater run-off and decreasing flooding.

• Federal, state, and local regulations are requiring stormwater to be managed at the source. The Aquascape Rainwater Harvesting System provides a solution to help meet these governmental regulations.

Rainwater Harvesting Water Feature Add-On Kits

Rainwater Harvesting Fountain Add-On Kit
#44000
Select from a number of decorative bubbling urns and stone fountains (seen on pages 90-108) that sit on top of the Aquascape Rainwater Harvesting System. The water spills over the top of the decorative piece and flows back down into the Aquascape Rainwater Harvesting Water Storage System where it is re-circulated.

Kit Includes:
- Pondless® Waterfall Vault
- Downspout Filter
- AquaSurge® 2000-4000 Adjustable Flow Pond Pump
- Kink-Free Pipe—3/4” x 25’
- Overflow Kit
- Decorative Fountain Component Bag

Rainwater Harvesting Pondless® Waterfall Add-On Kit
#44001
This water feature is made up of a waterfall or stream that flows and then disappears gracefully into the gravel.

Kit Includes:
- Pondless® Waterfall Vault
- Waterfall Spillway
- Downspout Filter
- AquaSurge® 2000-4000 Adjustable Flow Pond Pump
- LED Lighting Package
- Flexible PVC Pipe—2” x 25’
- 45 mil EPDM Liner—10’ x 20’
- Overflow Kit
- Installation Kit

The Aquascape Foundation is a nonprofit 501(c)(3) organization established in 2008. The mission of the Foundation is to create sustainable solutions for the world-wide water crisis. The purpose of the Foundation is to promote awareness of water as our most precious resource through environmental, educational and philanthropic efforts. One of the ways we accomplish this mission is by utilizing a modified version of the Aquascape Rainwater Harvesting System as a solution to bring clean drinking water to places where people currently have no access. The Foundation also funds the installation of borehole water well systems in areas with unsanitary water sources.

The Aquascape Foundation is utilizing its core technology to end this needless suffering. With this technology we can capture, purify and store thousands of gallons of rainwater, making it accessible and potable. Our technology will not only bring health and wellness to a community, but with an accessible water source, children can focus on education and adults can focus on employment. It’s a smart and sustainable solution to a complex problem. Water is Life!
