Lifestyle
Inspiration Guide
Imagine stepping outside your home into your very own oasis. Sit back and listen to the soothing sounds of running water as you enjoy the enchanting sights of nature. Feel the cares of today’s busy world slip from your shoulders as you relax and de-stress in your very own personal paradise!

An Aquascape water feature becomes the highlight of your outdoor living space. Add a touch of water to your patio with a simple Patio Pond or Fire Fountain. Incorporate a Pondless® Waterfall or an ecosystem pond into your landscape to add aesthetic appeal to your property while providing a stunning backdrop for outdoor entertaining. You’ll enjoy gathering friends and family near your beautiful water feature and witness the delight of children as they explore nature, up close and personal.

When you choose an Aquascape water feature, you can rest assured knowing our work focuses on providing customers a natural, environmentally-friendly approach to crafting and sustaining water features. At Aquascape, your paradise is our passion. For over 25 years, we’ve been creating and field-testing beautiful water features in order to provide the most reliable products and best value in the industry.

Self-contained water and fire features have been gaining in popularity. The Aquascape Fire Fountain is easy to set up and allows you to enjoy the beauty and elegance of flickering fire and flowing water. You’ll enjoy the soft sound of trickling water as the flame burns brightly in the center of the bowl. Constructed of durable glass fiber reinforced concrete (GFRC) and available in three sizes, choose the Fire Fountain that best suits your space and budget.

Patio Ponds
Enjoy a water garden in a matter of minutes. Create a beautifully planted water bowl with a variety of aquatic plants. Include underwater lighting and a couple of small fish like “rosy reds” for added interest and color.

A small bamboo fountain provides the soothing sound of running water to enjoy with your mini water garden. Available in a variety of sizes and colors, you can place your Patio Pond almost anywhere – outdoors or in!

Aquascape Fountain Kits make it easy to add a splash of water to your yard. Available in a variety of options, you’re sure to find one that suits your unique style. Fountain rocks create rustic appeal, while urns provide an elegant feel to your landscape.

Fountains can be added to any space in your yard, making them an ideal choice if you want a smaller water feature. Butterflies and birds will enjoy the refreshment your fountain brings to the garden. You’ll delight in the new sights and sounds of nature that a fountain provides.

Pondless® Waterfalls
The waterfall is, without a doubt, the most beautiful and sought-after landscape water feature. If space is limited in your yard, consider adding an Aquascape Pondless® Waterfall to enjoy the soothing sound of running water.

A waterfall can be soft and serene in the form of a babbling brook, or it can be more dramatic with a longer drop. Available in a variety of sizes and configurations, the Pondless Waterfall is a great option for both small and large outdoor spaces.

Waterfalls are extremely low maintenance, energy efficient, and attract a variety of wildlife. Children love exploring nature in and around the waterfall. Whether you add a waterfall to your front or backyard, be sure to locate it near a window so the melodious sounds can be enjoyed from inside your home, too!

Ecosystem Ponds
Imagine stepping outside your home into your very own backyard oasis, complete with a beautiful ecosystem pond. Sit back, relax, and enjoy the soothing sights and sounds of running water. Feel the cares of the world slip away as you enjoy your personal vacation spot!

An Aquascape ecosystem pond is self-sustaining, requires very little maintenance, and provides an opportunity to have fish as pets, without the regular upkeep of an indoor aquarium. Pond plants give you the chance to broaden your gardening horizons with choices that go beyond the standard petunia and rose. Bird lovers will delight in the new variety of feathered friends that flock to a water feature.

Spend quality time relaxing by your pond with family and friends. You’ll wonder why you waited so long to enhance your yard with a beautiful Aquascape ecosystem pond!

FOR MORE INFORMATION, VISIT AQUASCAPEINC.COM/POND-KITS
Filtration System

An ecosystem pond includes both a biological and mechanical filter. The biological filter provides surface area for beneficial bacteria to colonize and removes excess nutrients from the water. The mechanical filter houses the pump and skims debris from the water’s surface to prevent organic materials from accumulating on the pond floor.

Rocks and Gravel

Rocks and gravel protect pond liners from UV light degradation. In addition, rocks and gravel provide surface area for beneficial bacteria to grow and break down excess nutrients in the water.

Circulation System

Your pond’s circulation system consists of a pump and plumbing. These elements create an efficient system that keeps the water moving and provides necessary oxygen levels for healthy fish and plants.

Fish

Fish are an integral part of your pond as they reduce pond maintenance by grazing on string algae and bottom feeding from the pond floor. They also make enjoyable pets!

Pond Plants

Plants add color and texture to your pond while providing beneficial filtration. They absorb nutrients in a pond, depriving algae of its food source. Pond plants are critical for the overall health of your pond’s ecosystem.
