

## **INSTRUCTIONS FOR USE:**

**HOW MUCH:** 5 ml dose treats 25 gallons (94 liters).

**CALCULATE POND SIZE:** Length (feet) x Width (feet) x Average Depth (feet) x 7.48 = US Gallons

**HOW OFTEN:** We recommend one dose, repeating after 7 days, if needed.

**HOW TO:** Dilute treatment in one gallon of pond water and distribute evenly or add to an area with good water circulation.

**PLEASE NOTE: Shake before use.** It is important to accurately dose. Carefully calculate the water volume before adding. Discontinue the use of UV clarifiers/sterilizers or chemical filtration, including use of carbon, zeolite, or ion exchange resins. **Ensure proper oxygenation during treatment.**

**CAUTION:** May cause skin irritation. Avoid contact with skin, eyes, or clothing. For use with ornamental, contained water gardens, and ornamental fish only. Not for human use. **Keep out of the reach of children.** Keep container closed tightly and stored in a cool, dry place. Not to be given to fish intended for food use.
