

INSTRUCTIONS FOR USE:

HOW MUCH: 1oz treats up to 600 gallons (2,268 liters).

CALCULATE POND SIZE: Length (feet) x Width (feet) x Average Depth (feet) x 7.48 = US Gallons

HOW TO: Add to the area with the most circulation. Use a full dose after a cleanout or water change of more than 50%. Use a half dose when adding water to the pond or if adding, transporting, or netting fish.

PLEASE NOTE: Water temperature should be a minimum of 32°F (0°C). **Keep out of reach of children.** Store at room temperature.
