

## **INSTRUCTIONS FOR USE:**

**HOW MUCH:** One pump (30 ml) treats 600 gallons (2,268 Liters).

**CALCULATE POND SIZE:** Length (feet) x Width (feet) x Average Depth (feet) x 7.48 = US Gallons

**HOW TO:** Add to the area with the most circulation. Use a full dose after a cleanout or water change of more than 50%. Use a half dose when adding water to the pond or if adding, transporting, or netting fish.

**PLEASE NOTE:** Water temperature should be a minimum of 32°F (0°C). **Keep out of reach of children.** Store at room temperature.
