

## **INSTRUCTIONS FOR USE:**

**HOW MUCH:** Apply generously to the desired area.

**HOW OFTEN:** As needed. Allow 48 hours between treatments. Best results may require multiple applications.

**HOW TO:** Remove as much debris as possible prior to application. Halt water flow prior to application. Apply directly to debris. The pump can be turned back on after a minimum of 10 minutes. Allow at least 48 hours for treated debris to break apart. Floating debris can be easily removed by a filtration system, skimmer net, or water change.

**PLEASE NOTE:** Water temperature should be a minimum of 32°F (0°C). Aquascape, Inc. is not responsible for any loss of aquatic life. **Keep out of reach of children.** Avoid contact with eyes, skin, and clothing. Rinse thoroughly with water if on skin or in eyes.
