

DIRECTIONS FOR USE

HOW MUCH: One pump treats 100 gallons of water.

CALCULATE POND SIZE: Length (feet) x Width (feet) x Average Depth (feet) x 7.48 = US Gallons

HOW OFTEN: Treat once weekly for maintenance. During spring start-up or for dirty ponds, treat twice weekly for two weeks.

HOW TO: Add to the area in the fountain with the most circulation. We recommend keeping the fountain running for at least 24 hours after application.

PLEASE NOTE: Not safe for fish. Water temperature should be a minimum of 60°F or 15°C. **Keep out of reach of children.** Store at room temperature.
